Darts and Gussets Placement of Darts Blouses and Tops Skirts Dresses Appendix Author Bio Publisher Introduction Making your own clothes is one of the most interesting of skills that you can learn Down the ages people have learned how to design clothes through trial and error with new fashion innovations being used as accessories in order to hold the clothes to the body These included belts and brooches which held tartans cloaks skirts and other body coverings in place As time went by people began to look for more and more ways in which clothes could be worn fitting and protecting the form while looking elegant at the same time This book is going to tell you all about how you can begin tailoring by making up your own patterns You can get plenty of patterns ready made which can be cut out or are precut and all you have to do is pin them onto the cloth and cut it out According to your requirements these patterns can be modified by adding or subtracting and once you know the basics of drafting you are going to understand exactly what needs to be done when you see a pattern and recognize the different parts of it You are going to learn all about pattern drafting and dressmaking in further volumes of the series and this is going to be an extensive project somewhat like an encyclopedia about all the information of which you could think about dressmaking simple stitch craft sewing pattern designing and everything else which has to do with tailoring But first before you think about tailoring you need to have some basic supplies with you These are essential in order to give your clothes a professional look or at least to show that you are serious about tailoring You can add to these supplies as time goes by and you will get more skilled and enthusiastic about how you intend to draft clothes before you cut them out on cloth You may want to do some practice cutting sessions on useless pieces of cloth so that even if you manage to pin the wrong portions together and stitch them together without even finding out what happened during the pinning and sewing process you can just rip the seams open with the seam ripper and begin fresh As I did not want to waste lots of cloth because I have a bit of problem visualizing the end product I should have started young I did my cutting out on sheets of newspaper

measurement has been done back you go back to the shop trying desperately hard to match the color fabric and print But alas and alas that print was so popular that everyone in the city and their sisters cousins and aunts have bought that fabric So what do you do Either skimp on the fabric and instead of a maxi skirt you have a miniskirt You have a sleeveless blouse or a skimpy blouse instead of a long sleeved tunic
