*The Outer Limits* Joanne Morreale, 2022-04-05 Provides a history and criticism of an important disrupting force in early science fiction television programming In this TV Milestone author Joanne Morreale highlights the differences of *The Outer Limits* ABC 1963-65 from typical programs on the air in the 1960s Morreale argues that the show provides insight into changes in the television industry as writers turned to genre fiction in this case a hybrid of science fiction and horror to provide veiled social commentary The show illustrates the tension between networks who wanted mainstream entertainment and the independent writer producers Leslie Stevens and Joseph Stefano who wanted to use the medium to challenge viewers In five chapters *The Outer Limits* makes a case for the show's deployment of gothic melodrama and science fiction tropes unique televisual characteristics and creative adaptation of many cultural sources to interrogate the relationship between humans and technology in a way that continues to influence contemporary debate in such shows as *Star Trek* *The X-Files* and *Black Mirror* Underlying the arguments is the eerie notion of *The Outer Limits* as a disruptive force on television at the time purposely making audiences uncomfortable For example in its iconic opening credit sequence a disembodied Control Voice claims to be taking over the television as images mimic signal interference Other themes convey Cold War paranoia ambivalence about the Kennedy era New Frontier and anxiety about the burgeoning military industrial governmental complex The book points out that *The Outer Limits* presaged what came to be known as quality television While most episodes followed the lowbrow tradition of televised science fiction by adapting previously published stories and films the series elevated the genre by rearticulating it through themes and images drawn from myth literature and the art film *The Outer Limits* is lucid yet accessible well researched and argued with enlightening discussions of specific episodes even as it gives attention to broader television history and theory It will be of special interest to scholars and students of television and media studies as well as fans of science fiction

*A Soldier of the Empire* Lawrence Brodley, 2013 Benjamin William Badcock my Grandfather was an ordinary Englishman Yet like millions of others of his generation he lived through extraordinary times In 1880 the year of his birth between twenty five and thirty million people lived in Great Britain yet its industry and economy dominated the world and its Queen Empress Victoria held more than a quarter of its 1.52 billion population in thrall through her vast navy and tiny army But the following year in 1881 a handful of Boer farmers threw down a challenge that reverberated across Africa and the world and set a pattern for the 20th Century that would lead to the dissolution of the old imperial world order and ultimately to the break up of the British Empire all within the lifetime of one soldier my grandfather Benjamin William Badcock Had you met Ben you would have found him to be like millions of other British citizens of his time oblivious of the fact that he was and they were making history But though not a historical figure he was nevertheless a participant in and a witness to many great events and historical moments living as he did through the greatest period of industrial development and socio economic change that Britain or the world had ever experienced Son of a

Devonport soldier his namesake Benjamin Badcock Ben was born in a tented Summer camp at Platras on the side of a Cyprus mountain At three months he was jolted down its mountainside in a donkey pannier as the regimental train of his father s regiment the 2nd Battalion 20th Foot The East Devons marched to Larnaca In the following year 1881 the family and regiment would move to Malta and from thence remustered as Lancashire Fusiliers to Ireland in Royal Naval sailing ships That voyage from Malta to Ireland took 3 4 weeks to accomplish depending on the winds a journey which 70 years later by the miracle of air travel would reduce to as many hours as it had taken weeks before a miracle which by the time of his death in 1964 Ben himself had witnessed evolving from Colonel Sam Cody s tentative stringbag flights at Farnborough in 1910 through the development of aerial warfare in two world wars and its metamorphosis into the jet fighters V bombers and airliners of the 1950 s and 60 s Much of this he witnessed from his back garden in Aldershot as the myriad prototypes circled and dived in the then ALL British Farnborough air shows held annually each September Those changes however had been bought at great human cost as a result of clashing imperial egos and conflicting political and socio economic imperatives the price of which is still being paid in continuous political conflict and instability across the globe and in particular in the Middle East conflict in which British armed forces have been constantly and tirelessly involved both at home in Ireland and overseas And it was in these conflicts in one way or another that the Badcock family were involved from 1867 to 1969 the zenith of which service culminated in the award to my grandfather Benjamin William Badcock later Baddock of the Military Cross MC The Medaille Militaire and his three Mentions in Despatches during WW 1 the Great War or Big Scrap as Ben called it But to talk of that gets ahead of ourselves for prior to that my Grandfather would first have to be raised to take the Queen s shilling be trained and blooded for the task in the 2nd Boer War and to meet and marry Mabel Lawrence and with her to raise a family of their own And that is a story in its own right

Soldiers and Civil Power Thijs Brocades Zaalberg, 2006 Since the Cold War peace operations have become the core focus of many Western armed forces In these operations the division between civil and military responsibilities often rapidly blurs Among policy makers and in military circles a debate has erupted regarding the scope of the military in stabilizing and reconstructing war torn societies Should soldiers who primarily prepare for combat duties observe a strict segregation between the military sphere and the civilian sphere or become involved in nation building Should soldiers be allowed to venture into the murky arena of public security civil administration humanitarian relief and political and social reconstruction In Soldiers and Civil Power Thijs Brocades Zaalberg draws on military records and in depth interviews with key players to examine international operations in the 1990 s in Cambodia Somalia Bosnia and Kosovo Focusing his historical analysis on the experiences of various battalions in the field he reveals large gaps between this tactical level of operations political strategic decision making and military doctrine By comparing peace operations to examples of counterinsurgency operations in the colonial era and military governance in World War II he exposes the controversial but inescapable role of the Western military in supporting and even substituting civil authorities
