The Outer Limits The Human Factor:

The Outer Limits, 1963 *The Human Factor* Doug Murray, 1986 [1999: A Space Odyssey](#) John K Balor, 2018-08-03

Part of the premise of the online discussion transcribed in this book is how Gerry Anderson's television series *Space 1999* can be understood in relation to Stanley Kubrick's 2001 *A Space Odyssey* by looking at both narratives through the perspective of systems theory. As a result of doing so an engaged debate concerned with the political and philosophical subtext of both stories developed. This book gives a full account of the debate with summaries of ideas and insights. The book has been developed on an idealistic basis. It is sold at the lowest price the publisher was willing to accept. A free e book version can be downloaded at www.lulu.com [Read My Lips](#) Sally Kellerman, 2013-04-30 Sally Kellerman's portrayal of Margaret Hot Lips Houlihan in Robert Altman's *MASH* remains a landmark performance. Throughout her long career Kellerman has been a real dame honest down to earth sultry funny and unfiltered. In *Read My Lips* Kellerman shares colorful tales of her years as an up and coming actress in the early 60s when Hollywood was a small neighborhood full of chance encounters. To pay for acting classes ten dollars each alongside the likes of Jack Nicholson she waited tables at a coffee house on the Sunset Strip that was a hangout for Marlon Brando Steve McQueen and Warren Beatty. While she watered her lawn one morning in her bathrobe Ringo Starr stopped in his convertible to say he'd just moved into the neighborhood and she should drop by. During the Vietnam War she dated Henry Kissinger. Over the years there were drugs affairs diets and therapy a music album a marriage and motherhood. As the innocence of the 1950s collided with the free spirit of the 1960s everything felt new and exciting and Sally Kellerman was right in the middle of it. In *Read My Lips* Sally transports us back to that unique era and shares the challenges and rewards of her marriage children and her iconic career **Gender in Science Fiction Films, 1964-1979** Bonnie Noonan, 2015-06-15 The 1950s era of science fiction film effectively ended when space flight became a reality with the first manned orbit of Earth in 1962. As the genre's wildly speculative depictions of science and technology gave way to more reality based representations relations between male and female characters reflected the changing political and social climates of the era. Drawing on critical analyses film reviews and cultural commentaries this book examines the development of science fiction film and its representations of gender from the groundbreaking films of 1968 including 2001 *A Space Odyssey* *Barbarella* and *Planet of the Apes* through its often overlooked Middle Period which includes such films as *Colossus* *The Forbin Project* 1970 *The Stepford Wives* 1975 and *A Boy and His Dog* 1975. The author examines intersections of gender and race in *The Omega Man* 1971 and *Frogs* 1972 gender and dystopia in *Soylent Green* 1973 and *Logan's Run* 1976 and gender and computers in *Demon Seed* 1977. The big budget films of the late 1970s *Close Encounters of the Third Kind* *Alien* and *Star Wars* are also discussed [International Encyclopedia of Ergonomics and Human Factors - 3 Volume Set](#) Informa Healthcare, Waldemar Karwowski, 2006-03-15 The previous edition of the *International Encyclopedia of Ergonomics and Human Factors* made history as the first unified source of reliable information drawn from many realms of

science and technology and created specifically with ergonomics professionals in mind It was also a winner of the Best Reference Award 2002 from the Engineering Libraries
