In the process, children develop spatial thinking that is essential for future careers in STEM. The text also offers guidance for arranging the physical, intellectual, social, emotional, and promotional environments of a classroom to embrace the natural integration of literacy learning. Each volume in this series includes guidance for forming partnerships with families and administrators that support STEM learning vignettes showing educators and children engaging in inquiry learning, tips for selecting materials, modifications, and accommodations for diverse learners, ways to establish adult learning communities that support professional development, and more.
