The Past And Future People:

Thinking with Kierkegaard Arne Grøn, 2022-12-31 Arne Grøn's reading of Søren Kierkegaard's authorship revolves around existential challenges of human identity. The 35 essays that constitute this book are written over three decades and are characterized by combining careful attention to the augmentative detail of Kierkegaard's text with a constant focus on issues in contemporary philosophy. Contrary to many approaches to Kierkegaard's authorship, Grøn does not read Kierkegaard in opposition to Hegel. The work of the Danish thinker is read as a critical development of Hegelian phenomenology with particular attention to existential aspects of human experience. Anxiety and despair are the primary existential phenomena that Kierkegaard examines throughout his authorship, and Grøn uses these negative phenomena to argue for the basically ethical aim of Kierkegaard's work. In Grøn's reading, Kierkegaard conceives human selfhood not merely as relational but also a process of becoming the self that one is through the otherness of self-experience that is the body, the world, other people, and God. This book should be of interest to philosophers, theologians, literary studies scholars, and anyone with an interest not only in Kierkegaard but also in human identity. Politics of Time Leszek Koczanowicz, 2008-08-01 What has really happened in Poland since the election of 2005? After such spectacular events as the practice of lustration and the questioning of solidarity with the European Union, one has to ask what is the nature of this newly emerging society. As with many of the recent developments in former communist countries that seem to be mysterious and irrational, the situation and ensuing problems are complex and the answers neither trivial nor easy. This book by the distinguished Polish philosopher addresses these complexities through the role of the communist past in post-communist Poland. It describes the events that led to the collapse of the Solidarity program and the growing influence of the nationalistic and religious parties in the government. The author investigates the nature of social and political temporality and develops a theoretical framework that allows him to apply his conclusions not only to Poland but also to other formerly communist countries. **Old and New London: a Narrative of Its History, Its People and Its Places** George Walter Thornbury, 1873 Virginia: a History of the People John Esten Cooke, 1886 *A History of the Van Sickle Family, in the United States of America* John Waddell Van Sickle, 1880 Ferdinandus Van Sycklin ca. 1635–ca. 1712 emigrated from Holland (Netherlands) to Kings County, Long Island, New York, in 1652.
