### **The Peach-blossom Fan & Other Qing Dynasty Stories**

1991 "The Peach Blossom Fan" Richard E. Strassberg,1979 *Androgyny in Late Ming and Early*

*Qing Literature* Zuyan Zhou,2003-02-28 The frequent appearance of androgyny in Ming and Qing literature has long

interested scholars of late imperial Chinese culture A flourishing economy widespread education rising individualism a

prevailing hedonism all of these had contributed to the gradual disintegration of traditional gender roles in late Ming and

early Qing China 1550 1750 and given rise to the phenomenon of androgyny Now Zuyan Zhou sheds new light on this

important period offering a highly original and astute look at the concept of androgyny in key works of Chinese fiction and

drama from the sixteenth to the eighteenth centuries The work begins with an exploration of androgyny in Chinese

philosophy and Ming Qing culture Zhou proceeds to examine chronologically the appearance of androgyny in major literary

writing of the time yielding novel interpretations of canonical works from The Plum in the Golden Vase through the scholar

beauty romances to The Dream of the Red Chamber He traces the ascendance of the androgyny craze in the late Ming its

culmination in the Ming Qing transition and its gradual phasing out after the mid Qing The study probes deviations from

engendered codes of behavior both in culture and literature then focuses on two parallel areas androgyny in literary

characterization and androgyny in literati identity The author concludes that androgyny in late Ming and early Qing

literature is essentially the dissident literati s stance against tyrannical politics a psychological strategy to relieve anxiety

over growing political inferiority

masterpieces in their time and ever since This study presents them in their social and cultural context during the long

seventeenth century 1580 1700 the period of great experimentation and political transition The romantic spirit and

independent thinking of the late Ming elite stimulated the efflorescence of the chuanqi and that legacy was inherited and

investigated during the second half of the seventeenth century in early Qing Jing Shen examinees the texts to demonstrate

that the playwrights appropriate convert or misinterpret other genres or literary works of enduring influence into their plays to convey subtle and subversive expressions in the fine margins between tradition and innovation history and theatrical representation. By exploring the components of romance in texts from late Ming to early Qing Shen reveals creative readings of earlier themes stories plays and the changing idea of romanticism for chuanqi drama. This study also shows the engagement of literati playwrights in closed literary circles in which chuanqi plays became a tool by which literati playwrights negotiated their agency and social stature. The five playwrights whose works are analyzed in this book had different experiences pursuing government service as scholar officials some failed to achieve high office.
