## **The Peopling Of Hawaii:**

**The Peopling of Hawaii** Eleanor C. Nordyke, 1989-05-01 Hawaii's growth and its outlook for the future are viewed in light of recent demographic data and current events and trends in the completely revised and updated edition of *The Peopling of Hawaii*. With simplicity and candor, author Eleanor Nordyke describes how Hawaii was settled first by Polynesians and later by successive waves of new arrivals from nations in the Americas, Europe, Asia, and the Pacific. Nordyke presents a concise analysis of current demographic data accompanied by discussions of each major ethnic group. Well illustrated with photos and graphics along with a complete appendix of statistical tables, the second edition of *The Peopling of Hawaii* presents the fascinating history of an island state's population and underlines Hawaii's greatest challenge: how to share the finite resources of a fragile island environment. Foreword by Robert C. Schmitt.

*Environmental History of Modern Migrations* Marco Armiero, Richard Tucker, 2017-05-12 In the age of climate change, the possibility that dramatic environmental transformations might cause the dislocation of millions of people has become not only a matter for scientific speculation or science fiction narratives but the object of strategic planning and military analysis. *Environmental History of Modern Migrations* offers a worldwide perspective on the history of migrations throughout the nineteenth and twentieth centuries and provides an opportunity to reflect on the global ecological transformations and developments which have occurred throughout the last few centuries. With a primary focus on the environment-migration nexus, this book advocates that global environmental changes are not distinct from global social transformations. Instead, it offers a progressive method of combining environmental and social history which manages to both encompass and transcend current approaches to environmental justice issues. This edited collection will be of great interest to students and practitioners of environmental history and migration studies as well as those with an interest in history and sociology.
