The Olive Tree Connection John Fischer, 1983 Yeshua of Nazareth was Jewish His twelve disciples were Jewish and the Bible was written by Jews Gentiles adopted Yeshua as exclusively their own and Jews grew to fear the very word Christian John Fischer maintains that Gentile and Jew can once again share Israel's Messiah back cover *The Lebanese Connection* Jonathan Marshall, 2012-05-16 Long before Mexico Colombia and Afghanistan became notorious for their contributions to the global drug traffic Lebanon was a special target of U S drug agents for harboring the world's greatest single transit port in the international traffic in narcotics In the words of one American official certain of the largest traffickers are so influential politically and certain highly placed officials so deeply involved in the narcotic traffic that one might well state that the Lebanese Government is in the narcotics business Using previously secret government records *The Lebanese Connection* uncovers for the first time the story of how Lebanon's economy and political system were corrupted by drug profits and how by financing its many ruthless militia Lebanon's drug trade contributed to the country's greatest catastrophe its fifteen year civil war from 1975 to 1990 In so doing this book sheds new light on the dangerous role of vast criminal enterprises in the collapse of states and the creation of war economies that thrive in the midst of civil conflicts Taking a regional approach to the drug issue Jonathan Marshall assesses the culpability of Syria Israel and of Palestinian factions and other groups that used Lebanon as their battleground On the international level he documents Lebanon's contribution to the hard drug problem of major consuming countries from the days of the French Connection through the Pizza Connection as well as Lebanon's unrivaled place in the global hashish market **Revolution, Revival, and Religious Conflict in Sandinista**

Nicaragua Calvin L. Smith, 2007-03-31 This interdisciplinary study breaks new ground by exploring relations between Protestants mainly Pentecostals and the Sandinistas in revolutionary Nicaragua which to date have received scant attention It challenges the view that most Protestants supported the Sandinistas in fact the majority vigorously opposed them and establishes why many believed Nicaragua was heading towards communism or totalitarianism Meanwhile the Sandinistas expressed irritation with Pentecostalism's otherworldliness and support for Israel Pentecostals were harassed even brutally repressed in the northern highlands leading many to join the Contras That a minority of Protestants supported the Sandinistas caused further problems Pentecostals and Sandinistas were ideological rivals offering an alternative vision to the poor revolution or revival As Pentecostalism exploded a collision between the two was inevitable **Israeli-Turkish Relations at the End of the Cold War** Eldad Ben Aharon, 2025-11-30 This book is the first to explore Israeli Turkish relations during the 1980s a decade often overlooked due to the absence of formal diplomatic ties Although Turkey appeared to distance itself from Israel this book examines how Cold War era ontological security concerns played a key role in improving bilateral relations behind the scenes These ontological fears included Turkey's potential departure from NATO and its increasing efforts to combat international terrorism Divided into three sections the book attributes the strengthening of

Ankara Jerusalem ties in the 1980s to the Israeli MFA's efforts to support the denial of the 1915 Armenian Genocide in international forums. It presents case studies of four distinct episodes and examines the diplomatic manoeuvring involved. Drawing on declassified records from Israeli and American archives along with 30 oral interviews with Israeli Turkish and Armenian officials, the book demonstrates that Israeli Turkish relations during the late Cold War were shaped not only by the 1979 Islamic Revolution in Iran but also by Turkey's September 1980 military coup, Turgut Ozal's leadership, Turkey's 1987 application to the European Economic Community and other key developments in Turkish politics and foreign policy. Taking an interdisciplinary approach, Eldad Ben Aharon also reveals how the 1980s marked the establishment of international norms on genocide recognition and memory with the Holocaust emerging as the gold standard for understanding human rights violations while the Armenian Genocide remained contested and relegated to a weaker secondary norm.
