# Natures Paintbrush The Patterns And Colors Around You

**Marianne Knaus**

## **Natures Paintbrush The Patterns And Colors Around You:**

*Nature's Paintbrush*, 1999 Simple text and bright pictures explain the many uses of colors and patterns in the natural world Maths is all Around You Marianne Knaus, 2015-04-23 We encounter mathematics on a regular basis in one form or another For some people maths is scary and not something they feel confident about Even though many educators and parents attempt to provide good mathematics experiences there is still a high level of anxiety about the teaching and learning of mathematics This book presents a broad range of concepts and aims to widen the narrow view that maths for young children is just about numbers and shapes The content includes pattern early algebra counting number early operations measurement shape and spatial awareness geometry matching sorting data analysis and the introduction of chance statistics and probability This book is intended for educators and parents who would like to explore and investigate maths concepts to enrich children's experiences and extend their current thinking and learning Art Projects that Dazzle & Delight Karen Trush, Karen Trush, Karen Backus, Linda Evans, Mary Thompson, 2002 Beach Ball Collage Patchwork Pets Symmetrical Smiles Kids will love these creative and colorful no fail art activities that tie into popular themes such as seasons animals and friends Easy how to's guide you through each step from introducing the projects to displaying them Created and classroom tested by four art teachers these surefire activities are fun for every student For use with Grades 2-3 25 Terrific Art Projects Karen Backus, Linda Evans, Mary Thompson, 2002 Collects artistic activities based on the illustration styles in such popular picture books as Leo Lionni's *Swimmy* Eric Carle's *Draw Me a Star* and Lois Ehlert's *Draw Me a Rainbow*

*Collecting for the Curriculum* Amy J. Catalano, 2015-09-28 If you're a librarian charged with collecting curriculum materials and children's literature to support the Common Core State Standards then this book the only one that offers explicit advice on collection development in curriculum collections is for you While there are many publications on the Common Core for school librarians and K-12 educators no such literature exists for curriculum librarians at the post secondary level This book fills that gap standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards CCSS The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices The book begins with a primer on the CCSS and how curriculum librarians can support them Discussion of the Standards is then woven through chapters arranged by content area that share research based practices in curriculum development and instruction to guide you in curriculum selection Material types covered include games textbooks children's literature primary sources counseling and nonfiction Additional chapters cover the management of curriculum collections testing collections and instruction and reference as well as how to support and collect for special needs learners Current practices in collection development for curriculum materials librarians are also reviewed The book closes with a discussion of the future of curriculum materials

**Best STEM Resources for NextGen Scientists** Jennifer L. Hopwood, 2015-06-30 Intended to support the national

initiative to strengthen learning in areas of science technology engineering and mathematics this book helps librarians who work with youth in school and public libraries to build better collections and more effectively use these collections through readers advisory and programming A versatile and multi faceted guide **Best STEM Resources for NextGen Scientists The Essential Selection and User s Guide** serves as a readers advisory and collection development resource for youth services and school librarians seeking to bring STEM related titles into their collections and introduce teachers and young readers to them This book not only guides readers to hundreds of the best STEM related titles fiction and non fiction printed materials as well as apps DVDs websites and games it also includes related activities or programming ideas to help promote the use of the collection to patrons or students in storytime afterschool programs or passive library programs After a detailed discussion of the importance of STEM and the opportunities librarians have for involvement the book lists and describes best STEM resources for young learners Resources are organized according to the reading audiences for which they are intended from toddlers through teens and the book includes annotated lists of both fiction and nonfiction STEM titles as well as graphic novels digital products and online resources In addition the author offers a selection of professional readings for librarians and media specialists who wish to further expand their knowledge
