Indigenous Education W. James Jacob, Sheng Yao Cheng, Maureen K. Porter, 2015-01-20 Indigenous Education is a compilation of conceptual chapters and national case studies that includes empirical research based on a series of data collection methods. The book provides up to date scholarly research on global trends on three issues of paramount importance with indigenous education language culture and identity. It also offers a strategic comparative and international education policy statement on recent shifts in indigenous education and new approaches to explore, develop and improve comparative education and policy research globally.
