**Teacher-Research** Wolff-Michael Roth,2007-01-01 There are many teachers who think about doing research in their own classes and schools but who are perplexed by what appears to be involved This book is intended for these perplexed practitioners to provide them with an easily understandable narrative about the concrete praxis of doing research in their classrooms or in those of their teacher peers teaching next door or in the same school The fundamental idea underlying this book is to provide an easily accessible but nevertheless intellectually honest text that allows teachers to increase their agency with respect to better understanding their praxis and the events in their classrooms by means of research The author draws on his experience of doing teacher research while being a high school teacher and department head Roth uses six concrete research studies that he has conducted alone or with peers to describe the salient parts of any teacher researcher investigation including what topic to study issues of ethics and permissions from students school and parents how and what sources to collect how to structure resources how to construct data from the materials how to derive claims and how to write a report research study Roth chose the case based approach because cases provide the details necessary for understanding why and how he as teacher researcher has made certain decisions and what he would do differently today Using this case based approach he allows readers to tie methods choices to situations that they likely are familiar with Annual Report

**Inspection On Teaching and Learning. Dubai Private Schools as a Case Study** Mohamad Alkutich,2017-05-15 Master s Thesis from the year 2016 in the subject Pedagogy The Teacher Educational Leadership language English abstract School inspection is one of the most challenging aspects in education it represents an approach of accountability in teaching and learning Moreover school inspection provides policy and decision makers with accurate information about the current state

of education in their respective institutions The main purpose of this study is to examine and determine the impact of school inspection on teaching and learning in Dubai based private schools and to give some recommendations into how to conduct effective school inspection that would positively influence teaching and learning This research included 37 participants 2 inspectors 4 head teachers and 31 teachers from 4 private schools who follow different types of curricula from all grades of performance according to inspection reports conducted in the 2014 2015 academic year The findings show that school inspection has a significant role in school improvement especially in teaching and learning Teachers acknowledge the feedback that inspectors give to them However school inspection also has a negative impact on teaching and learning for instance it forces some schools to show activities they have never done before Moreover the school inspection reports and recommendations in some cases are superficial and are not related to the school context moreover they often do not show teachers how they can respond to criticism in the reality of their teaching practice Nevertheless the relationship between inspectors and teachers is not that positive especially in some subjects such as Arabic language and Islamic Studies This piece of research suggests some areas for the betterment in school inspection such as giving more importance for SSE School Self evaluations shortening the notice period visiting schools at different times throughout the academic year making such visits every three years as well as ensuring that school inspectors have a high degree in education and in the subject they inspect Nevertheless it recommends establishing an independent school inspection system On the other hand this study suggests further research on the accountability of teaching and learning in Dubai in specific subjects such as Arabic and Islamic studies because reality shows that the recent intervention and policy have not been as fruitful as expected
