The Cult of the Dead in a Chinese Village, 1973-06 This study deals primarily with Ch inan a village in northern Taiwan whose residents belong to one ethnic group Hokkien speaking Chinese whose ancestors made the journey from the southeast coast of mainland China over 200 years ago It deals almost exclusively with the complex of institutions associated with the care and management of the dead The book covers the history of Ch inan and how the village is organized today making use of historical records such as lineage genealogies Sociological correlates of ancestor worship in ancestral halls and before domestic altars are examined The darker side of ancestor worship is also explored in which the dead stand out as dangerous creatures capable of harming or frightening the living Perspective is then expanded to other parts of Taiwan to consider how the form of the community affects the cult of the ancestors how different reciprocal obligations between the living the dead affect ancestor worship and in what ways people react to the obligations of ancestor worship

Religion and Religious Practices in Rural China Mu Peng, 2019-11-13 This book explores how unlike in the West the daily religious life of most Chinese people spreads without institutional propagation Based upon more than a decade of field research in rural China the book demonstrates the decisive role of rites of passage and yearly festival rituals held in every household in shaping people's religious dispositions It focuses on the family the unit most central to Chinese culture and society and reveals the repertoire embodied in daily life in a world envisioned as comprising both the yin world of ancestors spirits and ghosts and the yang world of the living It discusses especially the concept of bai which refers to both concrete bodily movements that express respect and awe such as bowing kneeling or holding up ritual offerings and to people's religious inclinations and dispositions which indicate that they are aware of a spiritual realm that is separate from yet close to the world of the living Overall the book shows that the daily practices of religion are not a separate sphere but rather belief and ritual integrated into a way of dwelling in a world envisaged as consisting of both the yin and the yang worlds that regularly communicate with each other
