The Good Shopping Guide:

The Good Shopping Guide, 2011 Good Shopping Guide Ethical Consumer Research Association Staff, 2002-09-17
Written for the No Logo generation and the light green masses this guide to ethical shopping reveals what's behind the glossy images of hundreds of consumer brands. It displays the ethical records of companies and ranks them exactly according to environmental, animal welfare and human rights records. Over 50 consumer product sections are examined in detail: everything from banks to butter. Which bank is really the most ethical with its investment policy? Is a Neff fridge better for the environment than an Indesit? Is a Dyson more or less ethical than an Electrolux? Which brand of tea is best in terms of human rights records? Is Colgate or Oral B more ethical in terms of animal testing? Norwich Union or Prudential for insurance? A pint of John Smith's or a pint of Tetley's? The information is backed up by solid research from The Ethical Consumer Research Association, an independent co-operative which has been the authority in this field since 1989. The Good Shopping Guide Ethical Company Organization, 2012. This is an ethical shopping bible which guides readers towards some of the most ethical brands from companies who do not cause harm to or exploit humans, animals or the environment. It features tables showing each company's involvement in such areas as environmental reporting, genetic modification, nuclear power, animal welfare and much more. *The Good Shopping Guide 2012* Charlotte Mulvey, Sarah Edwardes, 2011-09-01. 10th anniversary edition. Guides readers towards some of the most ethical brands from companies who do not cause harm to or exploit humans, animals or the environment. The definitive book for people seeking high style at low prices by the authors of the Rocky Mountain News column Style Matters. *Ethics and Morality in Consumption* Deirdre Shaw, Michal Carrington, Andreas Chatzidakis, 2016-04-14. Ethical consumerism is on the rise. No longer bound to the counter-cultural fringes, ethical concerns and practices are reaching into the mainstream of society and being adopted by everyday consumers. From considering carbon miles to purchasing free-range eggs to making renewable energy choices, the wide reach and magnitude of ethical issues in society across individual and collective consumption has given rise to a series of important questions that are inspiring scholars from a range of disciplinary areas. These differing disciplinary lenses, however, tend to be contained in separate streams of research literature that are developing in parallel and in relative isolation. *Ethics in Morality and Consumption* takes an interdisciplinary perspective to provide multiple vantage points in creating a more holistic and integrated view of ethics in consumption. In this sense, interdisciplinary presupposes the consideration of multiple and distinct

disciplines which in this book are considered in delineated chapters In addition the Editors make an editorial contribution in the final chapter of the book by combining these separate disciplinary perspectives to develop a nascent interdisciplinary perspective that integrates these perspectives and presents platforms for further research *Human Rights and Capitalism*

Janet Dine,A. Fagan,2006-01-01 *Human Rights and Capitalism* brings together two important facets of the globalization debate and examines the complex relationship between human rights property rights and capitalist economies Human rights issues have become increasingly important in this debate and their place as harbingers of justice or as an instrument of oppression is fiercely contended Both sides of this issue are considered in the contributions to this book and the complex relationships between human rights human dignity and capitalist economies are the themes running throughout the work Appearing at a time when these issues are a subject of extreme controversy this book is distinguished by its balanced and academic approach *Chinese Outbound Tourist Behaviour* Jun Wen,Metin Kozak,2022-06-23 Assuming an international

perspective *Chinese Tourist Outbound Behaviour* presents an insightful exploration of the evolution of China s tourism market explores Chinese tourists behaviour and considers how the country s tourism landscape will expand in the future Featuring 16 chapters compiled and written by industry experts representing 11 countries this collection offers a vivid profile of Chinese tourists and the characteristics distinguishing them from other market segments This book coincides with the growing interest in Chinese tourism and tourist behaviour as the top market in the world in terms of tourism spending and arrival numbers presenting an overview of Chinese tourist segments and travel related concerns to paint a clear picture of the market s status Chapters address the future of Chinese tourism providing industry stakeholders an up to date view on this valuable market along with suggestions to best harness the market s power Providing an up to date exploration of numerous contemporary issues this book will be valuable to a wide audience including advanced students in tourism hospitality and leisure and recreation studies and stakeholders authorities establishments and employees within the tourism industry This book offers readers greater knowledge about the past present and future of the Chinese outbound tourism market **Appleton's European Guide Book for English-speaking Travellers** ,1886 **The Green Marketing**

Manifesto John Grant,2009-08-11 We are currently eating sleeping and breathing a new found religion of everything green At the very heart of responsibility is industry and commerce with everyone now racing to create their environmental business strategy In line with this awareness there is much discussion about the green marketing opportunity as a means of jumping on this bandwagon We need to find a sustainable marketing that actually delivers on green objectives not green theming Marketers need to give up the many strategies and approaches that made sense in pure commercial terms but which are unsustainable True green marketing must go beyond the ad models where everything is another excuse to make a brand look good we need a green marketing that does good The Green Marketing Manifesto provides a roadmap on how to organize green marketing effectively and sustainably It offers a fresh start for green marketing one that provides a practical and

ingenious approach The book offers many examples from companies and brands who are making headway in this difficult arena such as Marks Spencer Sky Virgin Toyota Tesco O2 to give an indication of the potential of this route John Grant creates a Green Matrix as a tool for examining current practice and the practice that the future needs to embrace This book is intended to assist marketers by means of clear and practical guidance through a complex transition towards meaningful green marketing Includes a foreword by Jonathon Porritt

Globalizing Responsibility Clive Barnett,Paul Cloke,Nick Clarke,Alice Malpass,2010-12-09 Globalizing Responsibility The Political Rationalities of Ethical Consumption presents an innovative reinterpretation of the forces that have shaped the remarkable growth of ethical consumption Develops a theoretically informed new approach to shape our understanding of the pragmatic nature of ethical action in consumption processes Provides empirical research on everyday consumers social networks and campaigns Fills a gap in research on the topic with its distinctive focus on fair trade consumption Locates ethical consumption within a range of social theoretical debates on neoliberalism governmentality and globalisation Challenges the moralism of much of the analysis of ethical consumption which sees it as a retreat from proper citizenly politics and an expression of individualised consumerism
