of the trials and successes of their years in the field from convincing Russian officials to allow them to study to adopting three bear cubs left orphaned when their mother was killed by a hunter and teaching these cubs how to survive in the wild to raising environmental awareness through art Through a combination of careful study and personal dedication Russell and Enns are persuading people to reconsider the age old image of the grizzly bear as a ferocious man eater and perpetual threat Through their actions they demonstrate that it is possible to forge a mutually respectful relationship with these majestic giants and provide compelling reasons for altering our culture We have been able to live beautifully with these animals with no serious threat because of what we ve learned Hopefully sharing what we learn will help people and be a big help to our bears too     **A Summary of the Grizzly Bear Recovery Plan** ,1993     **The Grizzly in the Southwest** David E.

Brown,1996 In this lively historically accurate account David E Brown chronicles the demise of the grizzly bear in the Southwest He presents the personal narratives of those who knew grizzlies accounts of hunters and administrators in wildlife management agencies and the popular legends and lore of the grizzly that one would hear around the campfire Scientists Southwest historians and those interested in America s wildlife will appreciate this readable study of the bear s life history and of the unique spirit of adventure associated with the grizzly bear a spirit that passed from southwest game ranges with the expirpation of the species in the first half of this century This edition includes a new foreword by Charles Jonkel and a new preface in which the author discusses the latest developments in the debate over the grizzly s place in the Southwest

The Grizzly Enos A. Mills,2014-04-16 It would make exciting reading if a forty year old grizzly bear were to write his autobiography Beginning with the stories from his mother of the long and exciting journey of his ancestors from far off Asia and of her own struggle in bringing up her family and then telling of his own adventurous life and his meetings with men and with other animals he could give us a book of highly dramatic quality Just what a wise old grizzly would say while philosophizing concerning the white race would certainly be of human interest and rich in material for literature
