Philpot, The reader is requested to bear in mind that this volume lays no claim to scholarship independent research or originality of view Its aim has been to select and collate from sources not always easily accessible to the general reader certain facts and conclusions bearing upon a subject of acknowledged interest In so dealing with one of the many modes of primitive religion it is perhaps inevitable that the writer should seem to exaggerate its importance and in isolating a given series of data to undervalue the significance of the parallel

facts from which they are severed It is undeniable that the worship of the spirit inhabited tree has usually if not always been linked with and in many cases overshadowed by other cults that sun moon and stars sacred springs and stones holy mountains and animals of the most diverse kind have all been approached with singular impartiality by primitive man as enshrining or symbolising a divine principle But no other form of pagan ritual has been so widely distributed has left behind it such persistent traces or appeals so closely to modern sympathies as the worship of the tree of none is the study better calculated to throw light on the dark ways of primitive thought or to arouse general interest in a branch of research which is as vigorous and fruitful as it is new For these reasons in spite of obvious disadvantages its separate treatment has seemed to the writer to be completely justifiable
