**The Paston Family in the Fifteenth Century: Volume 1, The First Phase** Colin Richmond, 1990-09-27 The Pastons of Paston Norfolk are famous for the collection of letters and

papers which bear their name In particular the Paston Letters have been well known since the time of Horace Walpole although until now they have never been used systematically by historians of fifteenth century England they are both immensely attractive to read and fiendishly difficult to use as source material from which to write history This volume describes in lively and original style the beginnings of the family's gentility and sets out some of the major themes of their history between 1400 and 1500 Many of the themes are common to all gentry families of the later Middle Ages a period critical in the formation of the English polity It might also be said that the Pastons epitomize a class which since the later Middle Ages has dominated the English state English society and English culture

**The Great Exchange: Making the News in Early Modern Europe** Joad Raymond Wren, 2025-07-10 An epic history of the birth of news in Europe News moves It is a battle a scandal a disaster It is a letter a newspaper a proclamation News is a material thing but also something between us something we take into us and feel This book tells the story of news from the sunset of the Middle Ages to the rise of mass media in modern times It begins in Renaissance Italy with the envoys and merchants who drew in and disseminated news across Europe establishing its channels and conventions Following the beat of news around the continent it uncovers a vast invisible network traversing the boundaries of geography and politics religion and language Joad Raymond Wren allows the reader to see news of the battle of Lepanto the siege of Vienna spreading around this network in real time Dispelling the tenacious myth that news was until the printing press scarce and unreliable and until the telegraph slow and provincial he opens up windows onto a world buzzing with news from faraway News brought the distant closer and provided the means for Europe to know itself The continent was for a time held together by that most essential of human acts communication

**The Edinburgh Review, Or Critical Journal**, 1877 **Book Sales of ...**, 1897 **Binomials in Late Middle English to Early Modern English** Akinobu Tani, 2025-03-18 This book charts the development of style and lexicon in the English language from Late Middle English to Early Modern English through the analysis of binomials across a wide range of

texts and genres The volume elucidates the forms functions and origins of binomials otherwise understood as word pairs such as safe and sound as they manifest in representative prose texts from the fourteenth and fifteenth centuries and in the Helsinki Corpus from the fourteenth through to the early eighteenth centuries The book begins with cross comparative analyses of binomials examining their frequency etymological makeup and repetition in prose texts including Chaucer and Malory to explore the stylistic characteristics of each text toward zooming out to examine their development in texts across different genres from political to philosophical to legal texts in the Helsinki Corpus In charting binomial development over both time and text type the volume offers readers a unique historical perspective into the evolution of phraseology from Late Middle English through to Early Modern English and in turn a solid foundation for future research on lexical development in the English language This book will be of interest to scholars in English historical linguistics English stylistics English corpus linguistics and English lexicology Chapter 8 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution NonCommercial NoDerivatives CC BY NC ND 4.0 International license

**The Paston Family in the Fifteenth Century: Volume 2, Fastolf's Will** Colin Richmond, 2002-05-16 The Paston family have long been famous for the large collection of letters and papers which bear their name However only recently have the Paston Letters been used systematically by historians of fifteenth century England they are both attractive to read and fiendishly difficult to use as source material for the historian This the second volume in Colin Richmond's individual and compelling study of the Pastons describes the bitter disputes over the will of Sir John Fastolf d. 1459 which dogged the family for many years and which hold a wider significance for the law English country society and the complex politics of the fifteenth century Professor Richmond uses his mastery of the Paston documents to illuminate many obscurities surrounding the will and at the same time creates an insightful and sympathetic picture of this fascinating often troubled family
