The Electrical Engineer ,1900 **Lu Xun's Affirmative Biopolitics** Wenjin Cui,2021-11-29 This book explores an extraordinary case of affirmative biopolitics through the study of Lu Xun 1881 1936 the most prominent cultural figure of modern China Diverging from the Enlightenment humanist framework in reference to which Lu Xun is commonly interpreted it demonstrates how his thinking is defined by a naturalistic conception of culture that is best understood in the global context of what Foucault defines as the biological turn of modernity In comparison to ontologically grounded modern Western theories of life it brings to light the deep connection between Lu Xun s affirmative biopolitics and the epistemic ground of Chinese tradition what is known as correlative thinking Combining close readings of literary texts with a theoretical consideration of broader issues of culture this book is an essential read for scholars and students who are interested in Lu Xun modern Chinese intellectual history comparative studies of Chinese and Western thought and the question of affirmative biopolitics

The Path of No Resistance Garret Kramer,2015-07-07 A FRESH TAKE ON THE INBORN CHARACTERISTIC OF RESILIENCE Most people are convinced that the key to rising above a perceived problem is to think about it analyze all angles and try hard to solve it But the fact is Problems in the world are mounting War famine and strife exist at alarming rates Not to mention that the level of respect within our families and communities seems to be fraying Simply put our behavior is not up to par these days it is spiraling downward Why We re not connecting the dots In the arenas of psychology teaching coaching and parenting we re using behavioral strategies to boost inner levels of clarity and consciousness to no avail So if focusing on behavior isn t working what will The Path of No Resistance provides a brand new look at how human beings really overcome adversity Along the way Garret Kramer reveals the astonishing truth about what creates our troubles in the first place And what we already know deep down that allows us to prosper in spite of any circumstance or situation Offering an array of examples Kramer demonstrates that resilience and contentment are in principle innate to everyone He insists that calculated self help methods are not the answer and explains why insight not intellect is what fuels our ability to excel and give back to others
