**The Self and the Lotus: A Jungian View of Indian Buddhism, Volume II** George R. Elder, 2023-05-30 It is obvious to thoughtful persons that our culture is undergoing a major transition as is our religion the carrier of values and guide to meaning It is essential therefore that we understand how religion functions when a culture is alive and well Observing how it has functioned elsewhere in another time and place is a good way to gain objectivity about the religious life And this survey of ancient Indian Buddhism serves that purpose It is important too that we try to interpret ancient wisdom in a modern way so that it has meaning for us Thus this work on Buddhism introduces the psychology of C G Jung and demonstrates to what extent Jung knew about Buddhism how he used it to comment upon the psychology of religion in general This is the second volume of a two volume work Following the first volume's exploration of the Life of the Buddha and Early Buddhist teaching this volume explores Mahayana teaching Buddhist Philosophy and Tantra At important junctures of the discussion the author pauses to reflect from the point of view of Jungian psychology     **The Path of Purification** Buddhaghosa, 1991 The Visuddhimagga here rendered Path of Purification systematically summarizes and interprets the teaching of the Buddha contained in the Pali Tipi aka As the principal non canonical authority of the Theravada it forms the hub of a complete and coherent method of exegesis of the Tipi aka using the Abhidhamma method as it is called It sets out detailed practical instructions for developing purification of mind     **The Lost Age of Reason** Jonardon Ganeri, 2014-03-27 The Lost Age of Reason deals with a fascinating and rich episode in the history of philosophy one from which those who are interested in the nature of modernity and its global origins have a great deal to learn Early modernity in India consists in the formation of a new philosophical self one which makes it possible meaningfully to conceive of oneself as engaging the ancient and the alien in conversation The ancient texts are now not thought of as authorities to which one must defer but regarded as the source of insight in the company of which one pursues the quest for truth This new attitude implies a change in the conception of one's duties towards the past After reconstructing the historical intellectual context in detail and developing a suitable methodological framework Ganeri reviews work on the concept of knowledge the nature of evidence the self the nature of the categories mathematics realism and a new language for philosophy A study of early modern philosophy in India has much to teach us today about the nature of modernity as such about the reform of educational institutions and its relationship to creative research and about cosmopolitan identities in circumstances of globalisation     **Crossing the Stream, Leaving the Cave**, 2024-05-07 Crossing the Stream Leaving the Cave brings philosophers from two of the world's great philosophical traditions Platonic and Indian Buddhist into joint inquiry on topics in metaphysics epistemology mind language and ethics An international team of scholars address selected questions of mutual concern to Buddhist and Platonist How can knowledge of

reality transform us Will such transformation leave us speechless or disinterested in the world around us What is cause What is self knowledge And how can dreams shed light on waking cognition What do the paradoxes thrown up by abstract thought about fundamental notions such as being and unity reveal Is it possible to attain unity in ourselves and should we even try Would doing so make us happy and is such happiness consistent with both contemplation of reality and action in the world With close readings of texts by Buddhaghosa Nagarjuna Vasubandhu Dignaga Bhaviveka Santideva by Plato Plotinus Porphyry Olympiodorus and Damascius among others these studies consider not just the different answers Buddhists and Platonists might give to these questions but also the criticisms they might bring to each other s positions the sort of arguments they use and the use they put these arguments to Bringing Platonic and the Buddhist perspectives jointly to bear creates a cosmopolitan philosophical exchange which yields greater conceptual clarity on the questions and the terms in which they are cast reveals unnoticed conceptual connections and opens up new possibilities for addressing central philosophical concerns
