The Perfect Childhood:

A Good Childhood Judy Dunn, Richard Layard, 2009-02-05 Every day the newspapers lament the problems facing our children broken homes pressures to eat and drink the stress of exams The same issues are discussed in every pub and at every dinner party But is life really more difficult for children than it was and if so why And how can we make it better This book which is a result of a two year investigation by the Children's Society and draws upon the work of the UK's leading experts in many fields explores the main stresses and influences to which every child is exposed family friends youth culture values and schooling and will make recommendations as to how we can improve the upbringing of our children It tackles issues which affect every child whatever their background and questions and provides solutions to the belief that life has become so extraordinarily difficult for children in general The experts make 30 specific recommendations written not from the point of view of academics but for the general reader above all for parents and teachers We expect publication to be a major event and the centre of widespread media attention

What is a Good Childhood? Johannes Drerup, Gottfried Schweiger, 2024-11-15 This book deals with the question of what is a good life for children It argues that a good childhood is one in which a child is sufficiently provided with all the goods it needs to develop into an autonomous person a child is sufficiently provided with the goods it needs for its well being sufficient space is given to a child's will wishes concerns and projects The book not only develops a new theoretical conception of a good childhood and defends it against objections it also engages with the problem how a good childhood can be realized in the context of families as well as the institutions of liberal states In so doing it provides numerous insights into central themes and key issues of the philosophy of childhood What is a Good Childhood is essential reading for all scholars and researchers of ethics social and political philosophy and philosophy education especially those focusing on the philosophy of childhood
