John Bouvier

Sty Law P:

Defending the Gospel in Legal Style John Warwick Montgomery, 2017-10-25 Traditional apologetics is either focused on obscure quasi Thomist philosophical arguments for God's existence or on 18th century style answers to alleged biblical contradictions. But a new approach has recently entered the picture: the juridical defence of historic Christian faith with its particular concern for demonstrating Jesus's deity and saving work for humankind. The undisputed leader of this movement is John Warwick Montgomery, emeritus professor of law and humanities, University of Bedfordshire, England, and director, International Academy of Apologetics, Evangelism and Human Rights, Strasbourg, France. His latest book, of more than sixty published during his career, shows the strength of legal apologetics: its arguments drawn from secular legal reasoning can be rejected only at the cost of jettisoning the legal system itself on which every civilised society depends for its very existence. The present work also includes theological essays on vital topics of the day, characterised by the author's well-known humour and skill for lucid communication.

International Law and World Order B. S. Chimni, 2017-05-25 This book offers a critique of the principal contemporary approaches to international law alongside its own novel perspectives.

Comparative Law in a Global Context Werner F. Menski, 2006-03-30 Now in its second edition, this textbook presents a critical rethinking of the study of comparative law and legal theory in a globalising world and proposes an alternative model. It highlights the inadequacies of current Western theoretical approaches in comparative law, international law, legal theory and jurisprudence, especially for studying Asian and African laws, arguing that they are too parochial and eurocentric to meet global challenges. Menski argues for combining modern natural law theories with positivist and socio-legal traditions, building an interactive triangular concept of legal pluralism. Advocated as the fourth major approach to legal theory, this model is applied in analysing the historical and conceptual development of Hindu law, Muslim law, African laws and Chinese law.
