Subject And Object In Renaissance Culture:

Subject and Object in Renaissance Culture Margreta de Grazia, Maureen Quilligan, Peter Stallybrass, 1996-02-23 This collection of original essays brings together some of the most prominent figures in new historicist and cultural materialist approaches to the early modern period and offers a new focus on the literature and culture of the Renaissance. Traditionally Renaissance studies have concentrated on the human subject. The essays collected here bring objects, purses, clothes, tapestries, houses, maps, feathers, communion wafers, tools, pages, skulls back into view. As a result, the much vaunted early modern subject ceases to look autonomous and sovereign but is instead caught up in a vast and uneven world of objects which he and she makes, owns, values, imagines, and represents. This book puts things back into relation with people in the process; it elicits new critical readings and new cultural configurations.

Shakespeare Quarterly, 2001 **Technology and the Early Modern Self** Adam Max Cohen, 2009-02-15 Cohen utilizes the interdisciplinary nature of contemporary literary and cultural studies to shed new light on the relationships between technologies and the people who used them during the early modern period.

Proceedings of the British Academy British Academy, 1998 *Yale French Studies*, 1948 *Perspectives on Western Art: Italian renaissance art of the early fifteenth century* Linnea Holmer Wren, David J. Wren, Janine M. Carter, 1987 This anthology of readings related to Western art history explains specific works of art illustrated in Janson's History of Art and De la Croix and Tansey's Gardner's Art Through the Ages in terms of the ideas, beliefs, and concerns of the people and cultures who created the art. It brings a new understanding of art because it shows the social and cultural basis of major works of art through history. The ten sections are Ancient, Near East, Egyptian, Aegean, Greek, Etruscan, Roman, early Christian, Byzantine, and Islamic; early Medieval, Romanesque, and Gothic. The readings have been drawn from many areas of intellectual and social history including religion, philosophy, literature, science, economics, and law. Each selection is preceded by an introductory note which discusses the readings in terms of its subject and theme, its source and usage, and its relevance to the study of the work of art.

Shakespeare's Hamlet and the Controversies of Self John Lee, 2000 This text offers a new approach to the discussion of English Renaissance literary subjectivity. Unhappy with new historicist and cultural materialistic criticism, it traces the history of the controversies of self.

The Cumulative Book Index, 1997 A world list of books in the English language.

Fantastical Errors Kasey Silem Mohammad, Hicks, 1998 *Continuity and Change in Art* Sidney Jules Blatt, Ethel S. Blatt, 1984 First Published in 1984 Routledge is an imprint of Taylor Francis an informa company.

Richard A. Goldthwaite,1993 Wealth and the Demand for Art in Italy represents a departure from previous studies both in its focus on demand and in its emphasis on the history of the material culture of the West By demonstrating that the roots of modern consumer society can be found in Renaissance Italy Richard Goldthwaite offers a significant contribution to the growing body of literature on the history of modern consumerism a movement which he regards as a positive force for the formation of new attitudes about things that is a defining characteristic of modern culture **The Builder** ,1897
