**Is there risk of losing money?
No. Let us explain how it works.**

Example:

1

DraftKings gives you **\$50 Bonus Bet** for the Yankees / Red Sox game.

2

You place that **\$50 Bonus Bet** with DraftKings on the Yankees.

3

This is the hedge bet

You also place a **\$25 bet** with FanDuel on the Red Sox (your money).

Yankees win

Win \$50

Lose \$25

Profit
\$25

Two possible outcomes:

Red Sox win

No loss

Win \$25

Because this
was a Bonus
Bet

Profit
\$25

This is a simple example to explain Matched Betting. Profits are often higher and the bet amounts will depend on the odds.

**You're kidding me.

Successful Matched Betting Geoff Harvey, 2002 Matched betting has been the quiet phenomena although now highly publicised of betting It now accounts for an incredible 45m a week and is rising inexorably Geoff Harvey author of Successful Spread Betting and Successful Football Betting has compiled the first ever guide to describe the opportunities and pitfalls of electronic one to one gambling Successful Matched Betting is a clear concise yet comprehensive guide to the most modern low margin form of betting available The author succinctly explains why anyone who bets simply has to discover the potential of matched betting He details the basics and then goes on to explore the many areas where strategies can be applied to maximise returns As the bookmaker is acting much more transparently as a broker there is no us and them mentality much prevalent with ordinary fixed odds bookmakers so the angle is quite different from other books of this nature The contents are arranged under key principles of matched betting While it features examples from all sports they are presented so that the reader gains a clear grasp of the principles underlying this most modern form of betting and most importantly how to do it well The emphasis is always towards the potential of matched betting over fixed odds in whichever sphere is chosen
