outstanding examples of inclusion to provide a complete overview of successful inclusion. The book concentrates on how to make inclusion work from the view of internationally established practitioners in the field of teacher education with a focus on what variables are likely to make a difference in practice. *What Works in Inclusion* covers three key aspects: Theories of inclusive education, Examples of how inclusion can be encouraged and facilitated, and What prevents inclusion from being successful. Drawing on case studies from a wide range of countries including USA, Australia, UK, Canada and Italy, there is a focus on the positive aspects of inclusion, how it can work and what actually works, helping you understand successful aspects of inclusion as well as developing an understanding of how inclusive education can best be implemented. In addition to the research based accounts of how to make inclusion work, the book considers the difficulties that can arise in attempting to achieve successful inclusion and how such barriers can be overcome to ensure a successful inclusive experience for both teachers and students. This is a key text for all serving and aspiring teachers and SENCOs as well as those interested in inclusion and SEN in schools and will inform and challenge in equal measure. Contributors: Adrian F.
