## **Suffering Divine Things Theology As Church Practice:**

**Suffering Divine Things** Reinhard Hütter, 2000 How do Christian beliefs and practices interrelate What is the nature and task of theology These questions have reemerged in the contemporary discussion with new vigor In this book Reinhard Hütter explores the link between Christian theory and action rigorously arguing for a renewed understanding of theology as a distinct church practice Using pathos suffering God's saving activity as a powerful theological motif Hütter offers fresh insight into the relationships between the Holy Spirit and the church doctrine and theology and beliefs and practices In addition Hütter shows how reclaiming pathos as a central motif for theology challenges modern and postmodern views focused on human identity agency and creativity as definitive of theology's nature and task Throughout Hütter remains acutely aware of recent trends in theological discourse and develops his argument in conversation with leading contemporary thinkers from North America and Europe His constructive work promises to reclaim theology's crucial role in the life and mission of the church
