## **Systematic Intervention With Disturbed Children:**

**Systematic Intervention with Disturbed Children** Marvin J. Fine, 2012-12-06 Disturbed children constitute a sizeable and varied percentage of the child population. Generally two to three percent have severe longstanding problems and 20 to 30 percent have current more transient problems. While preventive efforts are needed, it also seems obvious that many children will continue to function in a disturbed and disturbing fashion and will continue to require various kinds of therapeutic interventions. These interventions will mainly occur in school and community settings. This book attempts to present a picture of some fairly popular models of intervention and to consider important related issues. There are probably as many ways of coping with disturbed children as there are creative caring persons attempting to do the coping. A growing literature exists on ways of conceptualizing and intervening with such children. It was believed by the editor that an organized body of information on these concepts and techniques would prove useful to student and practitioner. A danger with such collections is that if they mainly portray novel or atypical techniques while informative, the book quickly becomes passe and of limited value. This book's focus is on contemporary thought but also on orientations that have stood the test of some time and the stability of the underlying theory.

**Handbook of Serious Emotional Disturbance in Children and Adolescents** Diane T. Marsh, Mary A. Fristad, 2002-10-23 The only comprehensive work on SED with practical information on diagnosing and treating children with SED. Features contributions by leading experts of SED research and practice. Includes a foreword by Kay Jamison, a nationally recognized author on mental illness.

**Systematic Intervention with Disturbed Children** Marvin J. Fine, 1984-07-31 *Educating Emotionally Disturbed Children and Youth* James L. Paul, Betty Cooper

Epanchin, 1991 Emotional Disorders in Children and Adolescents G. Pirooz Sholevar, Ronald M. Benson, Barton J.

Blinder, 2013-10-22 *Emotional Disorders in Children and Adolescents* states that individual psychotherapy is a nonspecific label. It is done when two people interact in a prolonged series of emotionally charged encounters with the purpose of changing the behavior of the dyad. The motives and dynamics of individual psychotherapy are explained in detail as well as the history of the approach. The book discusses the concept of child psychoanalysis. This section includes its historical background, the similarities and differences between child and adult psychoanalysis, the age of the child that should be treated, and frequency of treatment. The text also covers some techniques in the application of psychoanalysis. A broad section of the volume is focused on the modification of the child's behavior as a type of treatment. This chapter is followed by a section on the behavioral approaches in adolescent psychiatry. The book will provide useful information to psychologist, psychiatrist, behavioral specialist, students, and researchers in the field of psychology.
