Handbook of Child Psychology, Theoretical Models of Human Development William Damon, Richard M. Lerner, 2006-03-31 Part of the authoritative four volume reference that spans the entire field of child development and has set the standard against which all other scholarly references are compared. Updated and revised to reflect the new developments in the field, the Handbook of Child Psychology Sixth Edition contains new chapters on such topics as spirituality, social understanding and non verbal communication. Volume 1: Theoretical Models of Human Development, edited by Richard M. Lerner, Tufts University, explores a variety of theoretical approaches including life span, life course theories, socio culture theories, structural theories, object relations theories and diversity and development theories. New chapters cover phenomenology and ecological systems theory, positive youth development and religious and spiritual development.

Towards Reflexive Method in Archaeology Ian Hodder, 2017-10-01 In the early 1990s the University of Cambridge reopened excavations at the Neolithic site of Catalhöyük in central Turkey, abandoned since the 1960s. This is Volume 2 in the Catalhöyük Research Project series. Here Ian Hodder explains his vision of archaeological excavation where careful examination of context and an awareness of human bias allows researchers exciting new insights into prehistoric cognition. The aim of the volume is to discuss some of the reflexive or postprocessual methods that have been introduced at the site in the work there since 1993. These methods involve reflexivity, interactivity, multivocality and contextuality or relationality.
