Taboo Subjects Race Sex And Psychoanalysis:

Taboo Subjects, 2005 The Queerness of Childhood Anna Fishzon, Emma Lieber, 2022-07-21 This book represents a meeting of queer theorists and psychoanalysts around the figure of the child Its intention is not only to interrogate the discursive work performed on and by the child in these fields but also to provide a stage for examining how psychoanalysis and queer theory themselves interact with the understanding that the meeting of these discourses is most generative around the queer time and sexualities of childhood From the theoretical perspectives of queer theory psychoanalysis anthropology and gender studies the chapters explore cultural aesthetic and historical forms and phenomena that are aimed at or are about children and that give expression to and make room for the queerness of childhood Racial Melancholia, Racial Dissociation David L. Eng, Shinhee Han, 2019-01-17 In *Racial Melancholia Racial Dissociation* critic David L Eng and psychotherapist Shinhee Han draw on case histories from the mid 1990s to the present to explore the social and psychic predicaments of Asian American young adults from Generation X to Generation Y Combining critical race theory with several strands of psychoanalytic thought they develop the concepts of racial melancholia and racial dissociation to investigate changing processes of loss associated with immigration displacement diaspora and assimilation These case studies of first and second generation Asian Americans deal with a range of difficulties from depression suicide and the politics of coming out to broader issues of the model minority stereotype transnational adoption parachute children colorblind discourses in the United States and the rise of Asia under globalization Throughout Eng and Han link psychoanalysis to larger structural and historical phenomena illuminating how the study of psychic processes of individuals can inform investigations of race sexuality and immigration while creating a more sustained conversation about the social lives of Asian Americans and Asians in the diaspora **Racism** Albert J. Wheeler, 2005 Of all mankind's vices racism is one of the most pervasive and stubborn Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul This bibliography brings together the literature The Politics of Love Carla Christina Hustak, 2024-02-13 *The Politics of Love* explores the entanglement of emotions social movements and science in reconfiguring human and nonhuman relations As Darwin's evolutionary theory informed the development of sexual science and the sex reform movement between the 1890s and the 1920s sex reformers emerged as a group of diverse and culturally influential professionals doctors psychologists artists political activists novelists and academics who shared a profound commitment to changing the world by changing the practice of sex Sex reformers reinvented love as a scientific practice of sex that brought humans and nonhumans into the fold of early twentieth century racial gender and sexual politics Carla Christina Hustak illuminates how sex reformers insistence that love can shift human and nonhuman relations is more than just a historical narrative it is a moment in time interconnected with urgent contemporary concerns over the global implications of our emotional relationships to other humans animals the earth and

atmospheric and technological forces **Gender Theory in Troubled Times** Kathleen Lennon, Rachel Alsop, 2020-01-17

Theorizing gender is more urgent and highly political than ever before These are times in many countries of increased visibility of women in public life and high profile campaigns against sexual violence and harassment Challenges to fixed traditional gender norms have paved the way for the recognition of gay marriage and gender recognition acts allowing people to change the gender assigned to them at birth Yet these are also times of religious and political backlash by the alt right the demonization of the very term gender and a renewed embrace of the naturalness of gendered difference as ordained by God or Science A follow up to the authors 2002 text Theorizing Gender this timely and necessary intervention revisits gender theory for contemporary times Refusing a singular truth about gender the authors explore the multiple strands which go into making our gendered identities in the context of materialist and intersectional perspectives interwoven with phenomenological and performative ones The resulting critical overview will be a welcome and invaluable guide for students and scholars of gender across the social sciences and humanities **Blackness Is Burning** TreaAndrea M. Russworm, 2016-10-03 Blackness Is Burning critiques the way the politics of recognition and representation appear in popular culture as attempts to humanize black identity through stories of suffering and triumph or tales of destruction and survival Blackness Is Burning is one of the first books to examine the ways race and psychological rhetoric collided in the public and popular culture of the civil rights era In analyzing a range of media forms including Sidney Poitier s popular films black mother and daughter family melodramas Bill Cosby s comedy routine and cartoon Fat Albert pulpy black pimp narratives and several aspects of post civil rights black American culture TreaAndrea M Russworm identifies and problematizes the many ways in which psychoanalytic culture has functioned as a governing racial ideology that is built around a flawed understanding of trying to recognize the racial other as human The main argument of Blackness Is Burning is that humanizing or trying to represent in narrative and popular culture that BlackLivesMatter has long been barely attainable and impossible to sustain cultural agenda But Blackness Is Burning makes two additional interdisciplinary interventions the book makes a historical and temporal intervention because Russworm is committed to showing the relationship between civil rights discourses on theories of recognition and how we continue to represent and talk about race today The book also makes a formal intervention since the chapter length case studies take seemingly banal popular forms seriously She argues that the popular forms and disreputable works are integral parts of our shared cultural knowledge Blackness Is Burning s interdisciplinary reach is what makes it a vital component to nearly any scholar s library particularly those with an interest in African American popular culture film and media studies or psychoanalytic theory
