## **Tactical Nuclear Weapons European Perspectives:**

*Tactical Nuclear Weapons* Stockholm International Peace Research Institute, 2020-11-19 In the 1970s tactical nuclear warfare was a topical issue The introduction of the new generation of tactical nuclear weapons into Europe could have had disastrous consequences These new weapons had already been developed by nuclear weapon laboratories and pressures were growing for their deployment On first sight smaller and more accurate nuclear weapons may seem more humane and militarily preferable to the relatively high yield tactical nuclear weapons currently deployed But some of these new types of weapons would blur the distinction between nuclear and conventional weapons and their use would make escalation to strategic nuclear war extremely likely Indeed the argument for these new weapons is that their use in wartime is more credible and therefore acceptable than current types of tactical nuclear weapons This perception could easily lead to the exceedingly dangerous idea that some types of tactical nuclear war were winnable The fact has to be faced that any use of nuclear weapons is almost certain to escalate until all available weapons are used To believe otherwise is to believe that one side will surrender before it has used all the weapons in its arsenal History shows that this is most unlikely to happen Because of its importance SIPRI organized a meeting to discuss the whole question Originally published in 1978 this book is the outcome of that meeting

**Tactical Nuclear Weapons** Routledge, Chapman & Hall, Incorporated, Stockholm International Peace Research, 2022-09-04 In the 1970s tactical nuclear warfare was a topical issue New weapons had already been developed by nuclear weapon laboratories and pressures were growing for their deployment Because of its importance SIPRI organized a meeting to discuss the whole question Originally published in 1978 this book is the outcome of that meeting

**Tactical Nuclear Weapons and Euro-Atlantic Security** Paolo Foradori, 2013-07-18 This book offers a comprehensive examination of the important security issue of tactical nuclear weapons in Europe Nuclear nonproliferation and disarmament have returned to the top of the international political agenda The issue assumes particular importance in regard to NATO given that some 150 200 US tactical nuclear weapons TNWs are still present in five countries belonging to the Alliance Belgium Germany Italy the Netherlands and Turkey The past few years have seen animated debate in the United States and Europe on the role of such weapons in the current scenario of international security and whether they can be further reduced or completely removed from Europe Bringing together leading scholars and analysts of TNW with country specific competences this volume improves our understanding of this debate by providing in depth analysis of the presence role perceived value and destiny of TNWs in Europe The book addresses the issue in a systematic manner taking into account the perspectives of all main actors directly or indirectly involved in the debate This approach provides new and important insights that can inform both theoretical and policy work on a very critical and timely international issue especially during the ongoing review of NATO's deterrence and defence posture This book will be of much interest to students of European politics European security nuclear proliferation and IR in general

**The Last Great Nuclear Debate** T.

Halverson,1995-11-20 Fundamental changes in international relations during 1989 90 toppled the pillars of the security policy paradigm which had characterised the Cold War That convulsion swept aside the last of many nuclear debates to rend NATO Immediately the nuclear problems which had plagued the 1980s were tossed aside Yet many important and interesting elements of the decade s nuclear history had not been fully explained With the nuclear issue s rapid shift to irrelevancy previously hidden information on the period became at once less secret and more easily available Thus through extensive interviews with participants and careful analysis of open sources missing parts of the puzzle emerged This book is intended to provide a fuller explanation of NATO s last great nuclear debate

**European Security, Nuclear Weapons and Public Confidence** William Gutteridge,Marian Dobrosielski,Jorma Miettinen,1982-06-18 **Transaktie** ,1978 Alva Myrdal: A Pioneer in Nuclear Disarmament Peter Wallensteen,Armend Bekaj,2022-09-21 This book is about the importance of nuclear disarmament and the work pursued by Alva Myrdal a pioneering social activist diplomat cabinet minister and disarmament negotiator She was awarded the Nobel Peace Prize in 1982 together with Alfonso Garc a Robles for their work for disarmament and nuclear and weapon free zones Prominent academics politicians and practitioners have contributed reflections on Myrdal s achievements and their impact on the world today Furthermore a sample of Myrdal s own writings on nuclear disarmament are included as well as significant speeches and a bibliography of her publications on nuclear matters Alva Myrdal was born in Uppsala Sweden in 1902 graduated from college in Stockholm in 1924 and continued higher education at Uppsala University in the 1930s She was a prolific author and reformer specializing in social affairs women s roles and nuclear disarmament She was Sweden s Ambassador to India in the 1950s for Nuclear Disarmament in the 1960s and 1970s and a member of the Cabinet 1967 1973 Her most well known works are The Game of Disarmament 1976 Nation and Family 1941 and Women s Two Roles 1956 with Viola Klein Her book The Game of Disarmament 1976 is a key work in disarmament The Alva Myrdal Centre for Nuclear Disarmament was set up at Uppsala University in 2021 to contribute new ideas and concrete measures towards the elimination of nuclear weapons Both editors are associated with the Centre Professor Peter Wallensteen as a member of the board and leader of one of its working groups and Dr Armend Bekaj as a researcher This book is relevant for students of international relations and policy makers on issues of peace and conflict It provides background documentation on the difficulties in achieving disarmament It illustrates the significant role women can play to infuse new ideas into a men s world It displays the importance of persistence rationality ingenuity and knowledge in furthering nuclear disarmament It shows that Alva Myrdal s efforts can be an inspiration for new generations **Air University Review** ,1981-05 **The Nuclear Confrontation in Europe** Jeffrey H. Boutwell,Paul Doty,Gregory F. Treverton,2020-11-19 Originally published in 1985 this book explores the nuclear confrontation between East and West in Europe where we stand how we got there and what the future may hold Its concluding chapter outlines the prospects for nuclear arms control in Europe and it frames the debate over NATO strategy and the role of nuclear weapons in the years

ahead Can NATO reduce its reliance on nuclear weapons Can it cope with the issues at all The chapters on NATO theatre nuclear forces and doctrine provide a rich background to current policy issues The public debate over NATO s 1979 decision to deploy new American cruise and Pershing nuclear missiles in Europe was hardly unprecedented in NATO s history similar controversy surrounded NATO deliberations in the late 1950s and early 1960s That debate however subsided in the mid 1960s the nuclear question in Europe was relegated to the wilderness though efforts largely unavailing continued within official circles to define more clearly the role of nuclear weapons in NATO s defense Against this backdrop the nuclear debate emerged again in the 1970s This title unravels the military and political considerations at play in that debate and maps the European politics surrounding it Today it can be read in its historical context **Milton Leitenberg: Pioneering**

**Work on Weapons of Mass Destruction, Wars and Arms Control** Kathleen Margaret Vogel,Nicole Janice Ball,Milton Leitenberg,2025-09-26 This book is a collection of 44 representative publications and papers by Milton Leitenberg It allows publications that appeared in journals and books as well as unpublished work prepared for national and international organizations to appear in one place This makes them accessible to researchers for years and decades to come These studies made substantial contributions to the area of arms control particularly on the subjects of nuclear weapons wars and conflicts Soviet military studies biological weapons and other related international security areas all of which are of continued interest to security studies and political science audiences The primary audience is academics and practitioners in the arms control security studies and peace research fields The book is useful for graduate studies in arms control and peace research There is no similar book to this collection **Contrasting Perspectives on Tactical Nuclear Weapons in Europe** Bram Wannes

Vercamer,2013 This series of ad hoc publications deals with topical issues in the field of arms limitation disarmament and international security and are intended primarily for those concerned with these matters in Government civil society and in the academic community This issue focuses on tactical nuclear weapon TNW reduction both in the US and Europe Despite the many debates little has been done in recent years to reduce or eliminate the forward deployed NATO nuclear weapons This paper presents an overview of relevant discussion points ranging from a brief historic outline theoretical and practical arguments for TNW disarmament the logic of nuclear disarmament and the provision of a clear description of the different positions of relevant NATO member States on the TNW issue Bernard Brodie and the Foundations of American Nuclear Strategy Barry Howard Steiner,1991 Steiner analyzes how and why Brodie s understanding of weapons of unparalleled explosive force led him to posit the need for revolutionary strategic thinking in broadminded analytic method and in the focus upon cities as nuclear targets He shows the tremendous effect Brodie s work had on the intellectual climate in which policy is determined particularly in his frequent combatting of conventional wisdom **Nuclear Weapons Proliferation and**

Michael Legge,1983 After more than a decade of comparatively little public interest in matters of nuclear strategy the last few years have seen a resurgence of concern about the policy of nuclear deterrence that the North Atlantic Alliance has followed since the early 1950s In Europe in particular this concern has centered on the role of theater nuclear weapons in NATO strategy This report briefly examines the way in which that strategy evolved from the foundation of the Alliance in 1949 to the formal adoption of the current flexible response strategy in 1967 with particular reference to the role of theater nuclear weapons It then traces the development within the NATO Nuclear Planning Group of the more detailed doctrine concerning the role of theater nuclear weapons within the overall strategy which led inter alia to the decision taken by NATO in 1979 to modernize the long term component of the theater nuclear forces The report examines the main arguments that have been advanced against the current flexible response strategy and considers the merits of various alternative strategies The report finally considers ways in which the Alliance s theater nuclear stockpile might be adapted to meet the political and strategic needs of the 1980s

**World Encyclopedia of Peace** Linus Pauling,Ervin Laszlo,Chöng-nyöl Yu,1986 The World Encyclopedia of Peace is the first attempt of its kind to provide an integrated body of information on peace in all its aspects The Encyclopedia has two predominant themes peace research and peace activism In combining these two themes the Editors have sought to demonstrate the inter relationships between them and the ways in which they have fostered each other Consequently peace is discussed in these volumes from a very broad spectrum of perspectives from the idealist to the realist from the global to the subnational from the cultural to the economic from the religious to the feminist and from the historical to the contemporary
