Tactics Of Legal Reasoning:

Tactics of Legal Reasoning Pierre Schlag, David M. Skover, 1986 **Reputation and Judicial Tactics** Shai Dothan, 2015 This book argues that national and international courts seek to enhance their reputations through the strategic exercise of judicial power. Courts often cannot enforce their judgments and must rely on reputational sanctions to ensure compliance. One way to do this is for courts to improve their reputation for generating compliance with their judgments. When the court's reputation is increased, parties will be expected to comply with its judgments and the reputational sanction on a party that fails to comply will be higher. This strategy allows national and international courts which cannot enforce their judgments against states and executives to improve the likelihood that their judgments will be complied with over time. This book describes the judicial tactics that courts use to shape their judgments in ways that maximize their reputational gains.

Scientific Models of Legal Reasoning Scott Brewer, 2013-10-28 First published in 1998. This five volume series contains some of this century's most influential or thought-provoking articles on the subject of legal argument that have appeared in Anglo-American philosophy journals and law reviews. This volume offers a collection of essays by philosophers and legal scholars on economics, artificial intelligence and the physical sciences. **Legal Reasoning and Legal Writing** Richard K. Neumann, 1998 A revision of Neumann's very successful basic legal writing text, this edition continues to give a strong foundation in legal analysis and to writing while refining and further improving the text based on user's responses. The text focuses on constructing a proof of a conclusion of law and teaches format, style and grammar alongside the reasoning skills. Chapter 9, "How to Organize Proof of a Conclusion of Law" is widely regarded as the best explanation of this topic in any legal writing text. The goal is to help students learn how to make writing decisions based on the need to prove analysis. Of special interest are chapters on client interviewing and client letters, sample client letters. An updated citation and quotation chapter to reflect changes in the 16th Edition of the Blue Book sections that show students how to convert their raw materials into an organized first draft and explanations on the process of writing in detail and in many contexts. Combining clear, readable text with effective sample documents and exercises, Neumann has succeeded in creating a sophisticated yet accessible text carefully crafted for beginning legal writers.
