*Subject Guide to Books in Print* ,2001 *Bibliographic Guide to East Asian Studies 1996* G K HALL,G. K. Hall and Co. Staff,1997-07 Taiwan and Southeast Asia Karl Chee Leong Lee,Ying-kit Chan,2023-06-16 Lee Chan and their contributors analyse the different kinds of soft power deployed by Taiwan in its bid to strengthen its relations with its neighbours in Southeast Asia Despite not having formal diplomatic relations with Southeast Asian countries after their diplomatic recognition of the People s Republic of China decades ago Taiwan continues to be a key economic and socio cultural partner for the region at large Successive administrations in Taiwan from the Chen to Tsai eras have circumvented the long standing absence of diplomatic recognition with the diffusion of soft power shaping what others want with attractiveness through the utilization of its existing economic and socio cultural links with Southeast Asian countries While

such soft power diffusion contributes to Taiwan's triple quests for legitimacy as a member of international community status as a constructive actor in the region and long term economic prosperity for the island state the emergence of China as an economic superpower in the 21st century has significantly challenged such quests from Taipei The contributors to this volume examine both the intentions and the reception of Taiwan's approach to the nations of ASEAN An essential read for students and researchers investigating the impact and limitations of soft power in foreign policy *Foreign Policy Making in Taiwan* Dennis V. Hickey,2006-12-05 Following President Chen Sui bian's victory in the controversial 2004 presidential election this book examines the future direction of Taiwan's foreign policy focusing on the internal and external forces that influence and shape the country's foreign policy decisions today The author suggests that four levels of analysis the international system governmental structure societal forces and individual factors pose some explanatory value when seeking to understand Taipei's foreign policy behaviour Taiwan's foreign policy decision making remains an extremely complex process involving many important variables However the author's detailed analysis reveals that external factors particularly seismic shifts in global politics and the role of China and the US have had an extraordinary degree of influence over the island's foreign relations This book highlights these factors as important considerations that continue to play a critical role in shaping Taiwan's foreign policy Providing a clear analysis of the dynamics of Taiwan's foreign policy Foreign Policy Making in Taiwan is an important addition to the literature on Taiwan and will be essential reading for followers of Chinese politics comparative politics and foreign policy analysis **G.K.
