## Take A Trip To Antarctica:

**Cruise Tourism in Polar Regions** Michael Lück, Patrick Timothy Maher, Emma J. Stewart, 2010 Cruises are the primary form of tourism in the Polar Regions and cruise ship tourism in both the Arctic and Antarctic is expanding rapidly. The industry has moved beyond its infancy and is now entering a maturing phase with increased numbers and types of vessels, more demanding routes and more regular and predictable patterns of activity. The increase in cruise activities and the associated risks of accidents as well as the potential and actual impacts of the large numbers of tourists in the polar regions bring with it management challenges for sustainable use of these regions. This book discusses critically the issues around environmental and social sustainability of the cruise industry in Polar Regions. Authors from Canada, USA, Europe, Australia and New Zealand are experts in their respective fields and take an innovative, critical and at times controversial approach to the subject.

Antarctica Linda Aspen-Baxter, 2017-08-01 Antarctica does not have any stores, offices or factories. Today there are no permanent residents of this continent. Learn more about the natural resources, tourism and culture in Antarctica in an *Exploring Our Seven Continents* book.

Theorizing Tourism Arthur Asa Berger, 2016-09-17 A useful introduction to the critical study of tourism this brief text applies semiotics and cultural theory to deal with some of our most iconic global destinations. It offers accessible analyses of 18 famous tourist locations from the Taj Mahal to Red Square and from the Eiffel Tower to Antarctica. Written in Berger's friendly style it allows students to critically examine the political, cultural and economic significance these locales and understand their importance to tourism. Study questions add more pedagogical value to the highly readable text.

The Exploration of the Antarctic Regions Murray, 1886 Space Tourism John Spencer, Karen L. Rugg, 2004 Welcome Aboard Space is only 100 miles away from anywhere on Earth. Since the early 1980s a small group of visionaries have been pioneering the frontier of off-world tourism. Overcoming significant obstacles, their quest to start the space tourism industry was achieved on 28 April 2001 when American businessman Dennis Tito lifted off from Russia into Earth orbit for a week-long voyage aboard the International Space Station. He was the first space tourist. Upon boarding the Station he said I love space. He paid millions of his own dollars to fulfil his life long quest to experience space. Since then another space tourist has flown and many more are lining up for the opportunity. In the future space passengers will float and dance in zero gravity, swim in spheres of warm coloured water, enjoy games, saunas, exercise, massage, shopping and world class entertainment. Several private enterprise space tourism companies have recently been formed, some by multibillionaires including the co-founder of Microsoft, Paul Allen and the founder of Amazon.com, Jeff Bezos.
