**Subjects of modernity** Saurabh Dube, 2017-01-20 This book thinks through modernity and its representations by exploring critical considerations of time and space Drawing on anthropology history and social theory it investigates the oppositions and enchantments the contradictions and contentions and the identities and ambivalences spawned under modernity Crucially it understands these antinomies not as errors but as constitutive elements of modern worlds The book questions routine portrayals of homogeneous time and antinomian blueprints of cultural space while acknowledging the production of time and space by social subjects Instead of assuming a straightforward singular trajectory for the phenomena it views modernity as involving checkered contingent and contended processes of meaning and power which have found heterogeneous historical elaborations over the past five centuries Bringing together past and present theory and narrative it sows the historical ethnographic and methodological deep into its critical procedures offering an innovative understanding of cultural identities and imaginatively exploring the relationship between history and anthropology An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence
