Suffering And Moral Responsibility:

Suffering and Moral Responsibility Jamie Mayerfeld, 1999 Understanding suffering in hedonistic terms as an affliction of feeling he addresses difficulties associated with its identification and measurement

Suffering and Moral

Responsibility Jamie Mayerfeld Associate Professor of Political Science University of Washington, 1999-08-06 In this original study Jamie Mayerfeld undertakes a careful inquiry into the meaning and moral significance of suffering Understanding suffering in hedonistic terms as an affliction of feeling he addresses difficulties associated with its identification and measurement He then turns to an examination of the duty to relieve suffering its content its weight relative to other moral considerations and the role it should play in our lives Among the claims defended in the book are that suffering needs to be distinguished from both physical pain and the frustration of desire that interpersonal comparisons of the intensity of happiness and suffering are possible that several psychological processes hinder our awareness of other people's suffering and that the prevention of suffering should often be pursued indirectly Mayerfeld concludes his discussion by arguing that the reduction of suffering is morally more important than the promotion of happiness and that most of us greatly underestimate the force of the duty to prevent suffering As the first systematic book length inquiry into the moral significance of suffering *Suffering and Moral Responsibility* makes an important contribution to moral philosophy and political theory and will interest specialists in each of these areas

Suffering-Focused Ethics Magnus Vinding, 2020-05-29 The reduction of suffering deserves special priority Many ethical views support this claim yet so far these have not been presented in a single place *Suffering Focused Ethics* provides the most comprehensive presentation of suffering focused arguments and views to date including a moral realist case for minimizing extreme suffering The book then explores the all important issue of how we can best reduce suffering in practice and outlines a coherent and pragmatic path forward An inspiring book on the world's most important issue Magnus Vinding makes a compelling case for suffering focused ethics Highly recommended David Pearce author of *The Hedonistic Imperative* and *Can Biotechnology Abolish Suffering* We live in a haze oblivious to the tremendous moral reality around us I know of no philosopher who makes the case more resoundingly than Magnus Vinding In radiantly clear and honest prose he demonstrates the overwhelming ethical priority of preventing suffering Among the book's many powerful arguments I would call attention to its examination of the overlapping biases that perpetuate moral unawareness *Suffering Focused Ethics* will change its readers opening new moral and intellectual vistas This could be the most important book you will ever read Jamie Mayerfeld professor of political science at the University of Washington author of *Suffering and Moral Responsibility* and *The Promise of Human Rights* In this important undertaking Magnus Vinding methodically and convincingly argues for the overwhelming ethical importance of preventing and reducing suffering especially of the most intense kind and also shows the compatibility of this view with various mainstream ethical philosophies that don't uniquely focus on suffering His careful analytical style and comprehensive review of existing

arguments make this book valuable reading for anyone who cares about what matters or who wishes to better understand the strong rational underpinning of suffering focused ethics Jonathan Leighton founder of the Organisation for the Prevention of Intense Suffering author of The Battle for Compassion Ethics in an Apathetic Universe Magnus Vinding breaks the taboo Today the problem of suffering is the elephant in the room because it is at the same time the most relevant and the most neglected topic at the logical interface between applied ethics cognitive science and the current philosophy of mind and consciousness Nobody wants to go there It is not good for your academic career Only few of us have the intellectual honesty the mental stamina the philosophical sincerity and the ethical earnestness to gaze into the abyss After all it might also gaze back into us Magnus Vinding has what it takes If you are looking for an entry point into the ethical landscape if you are ready to face the philosophical relevance of extreme suffering then this book is for you It gives you all the information and the conceptual tools you need to develop your own approach But are you ready Thomas Metzinger professor of philosophy at the Johannes Gutenberg University of Mainz author of Being No One and The Ego Tunnel Law Notes Albert Gibson, Robert McLean,1886 *Cicero's Three Books Of Offices; Or, Moral Duties* Marcus Tullius Cicero,Cyrus R.
