**Suffolk's Defended Shore** Cain Hegarty, Sarah Newsome, 2014-06-30

Suffolk's Defended Shore presents an illustrated history of the development of military defences on the Suffolk coast using data collected as part of the English Heritage national survey The survey involved the examination of both modern and historic aerial photographs which led to the creation of a detailed map of the archaeological remains on the county's coast The results of the survey are dominated by evidence for the military defence of the coast reflecting the importance of the Suffolk coast in national defence strategies over many years Extensively illustrated this book highlights the particular importance of historic aerial photographs which provide a different and unique perspective on the coastal defences constructed in World War II Photographs taken during and immediately after this war sometimes provide the only visual record of the rapidly evolving defences from this period      *Staffordshire Airfields in the Second World War* Martyn Chorlton, 2007 Martyn Chorlton's book describes the history of each airfield highlights some of the operations carried out

from them and puts them into the overall context of a country and nation at war It will appeal equally to aviation enthusiasts and to readers who recall the era when the country's skies never ceased to throb with the drone of departing and returning aircraft

*National Index of Parish Registers* Donald John Steel,A. E.

F. Steel,1966 **UK Airfields Past and Present** Grant Peerless,2020-10-04 A great many books have been written over the years about individual airfields or those in particular counties areas but this one covers a good proportion of them in one publication from Abbots Bromley to Zeals It provides brief details of over 1700 airfields from before the First World War to the present day and describes the main activities carried out based units operators and current status It includes military bases civil airports airfields gliding sites microlight sites and larger farm strips together with the probable number of based aircraft An appendix lists over 500 books which have been published about individual airfields and this together with the details provided in this book affords a convenient source of reference for further research It does not pretend to include every flying site that ever existed as this would require a much larger volume but covers what are considered to be the most

significant airfields of the past 110 years It includes over one hundred photographs in colour and black white most of which have not been published previously    **Got Any Gum Chum?** Helen D. Millgate,2001 When the first American servicemen arrived in England in March 1942 the indigenous population greeted their presence with mixed feelings A certain level of resentment of these newcomers was harbored by the English and expressed by many in the well worn phrase of the time over paid over sexed and over here But without the presence of American servicemen in Britain and its huge military and industrial muscle the war with Germany would probably have been lost Using a combination of contemporary eyewitness and documentary sources plus latter day interviews linked together by engaging narrative author Helen Millgate takes a look at the background to the friendly invasion where they all came from who they were where they were stationed and what they did She examines how the Yanks got on with the locals how they fit in or didn t their impact on the social structure of England in the 1940s the problems they brought with them and their impressions of England She also reviews how the US Army went to war in June 1944 with the arrival of D Day and beyond to VE Day She concludes with the journey home once the war in Europe had ended describing what the Yanks left behind them and the wives and sweethearts they took stateside

Book Review Index ,1997 Every 3rd issue is a quarterly cumulation    **RAF Bomber Command in Fact, Film and Fiction** Jonathan Falconer,1996 RAF Bomber Command in Fact Film and Fiction is a bibliographical and media guide to the exploits of the command between 1939 1945 setting on record much of what has been written filmed or sound recorded in the English language    **Air Pictorial** ,1998    **Ipswich in the Second World War** David Jones,2005 A history of Ipswich in the Second World War    *RAF Bomber Command Losses of the Second World War 8* W. R. Chorley,2003 This series has been of enduring interest over many years and is still highly sought after Apart from the obvious interest to aviation historians many people researching family history find these books invaluable as so many families had someone in an RAF bomber squadron who failed to return from active service With the interest in family history increasing all the time and with many now seeking detailed information about wartime careers of relatives the series will continue to be used by those seeking to find out more about fathers grandfathers and other relatives who flew with and died in the service of Bomber Command during World War 2    *Hitler's Northern War* Adam R. A. Claasen,2001 Adolf Hitler had high hopes for his conquest of Norway which held both great symbolic and great strategic value for the Fuhrer Despite early successes however his ambitious northern campaign foundered and ultimately failed Adam Claasen for the first time reveals the full story of this neglected episode and shows how it helped doom the Third Reich to defeat Hitler and Raeder the chief of the German navy were determined to take and keep Norway By doing so they hoped to preempt Allied attempts to outflank Germany protect sea lanes for German ships access precious Scandinavian minerals for war production and provide a launchpad for Luftwaffe and naval operations against Great Britain Beyond those strategic objectives Hitler also envisioned Norway as part of a pan Nordic stronghold a centerpiece of his new world order But as Claasen shows Hitler s grand expectations were never

realized Gring s Luftwaffe was the vital spearhead in the invasion of Norway which marked a number of wartime firsts Among other things it involved the first large scale aerial operations over sea rather than land the first time operational objectives and logistical needs were fulfilled by air power and the first deployment of paratroopers Although it got off to a promising start the German effort particularly against British and arctic convoys was greatly hampered by flawed strategic thinking interservice rivalries between the Luftwaffe and navy the failure to develop a long range heavy bomber the diversion of planes and personnel to shore up the German war effort elsewhere and the northern theater s harsh climate and terrain Claasen s study covers every aspect of this ill fated campaign from the 1940 invasion until war s end and shows how it was eventually relegated to a backwater status as Germany fought to survive in an increasingly unwinnable war His compelling account sharpens our picture of the German air force and widens our understanding of the Third Reich s way of war

**Military Airfields of Yorkshire** Bruce Barrymore Halpenny,1990 A further volume in the programme of updating the Action Stations series This appears with an updated section of text and photographs to bring the story of Yorkshire s military airfields up to date    **Flypast** ,2008    **Cold War** Wayne Croft,Roger J. C. Thomas,2003 In the early 1950s the historian Professor William Hoskins in his pioneering work The making of the English landscape lamented what he saw as the devastation of the countryside by scientists the military and politicians He saw his world as dominated by the obscene shape of the atom bomber laying a trail like a filthy slug upon Constable s and Gainsborough s sky England of the Nissen hut the pre fab and the electric fence of the high barbed wire around some unmentionable devilment A generation later this book reveals what lay behind the fence and how the sites are now in dereliction a new aspect of the complex landscape history of Britain
