Systematic Thinking For Social Action:

Systematic Thinking for Social Action Alice M. Rivlin, 2015-03-24 In January 1970 Alice M Rivlin spoke to an audience at the University of California Berkeley The topic was developing a more rational approach to decisionmaking in government If digital video YouTube and TED Talks had been inventions of the 1960s Rivlin's talk would have been a viral hit As it was the resulting book Systematic Thinking for Social Action spent years on the Brookings Press bestseller list It is a very personal and conversational volume about the dawn of new ways of thinking about government As deputy assistant secretary for program coordination and later as assistant secretary for planning and evaluation at the Department of Health Education and Welfare from 1966 to 1969 Rivlin was an early advocate of systems analysis which had been introduced by Robert McNamara at the Department of Defense as PPBS planning programming budgeting system While Rivlin brushes aside the jargon she digs into the substance of systematic analysis and a quiet revolution in government In an evaluation of the evaluators she issues mixed grades pointing out where analysts had been helpful in finding solutions and where because of inadequate data or methods they had been no help at all Systematic Thinking for Social Action offers important insights for anyone interested in working to find the smartest ways to allocate scarce funds to promote the maximum well being of all citizens

Systems

Thinking For Social Change David Peter Stroh, 2015 Donors leaders of nonprofits and public policy makers usually have the best of intentions to serve society and improve social conditions But often their solutions fall far short of what they want to accomplish and what is truly needed Moreover the answers they propose and fund often produce the opposite of what they want over time We end up with temporary shelters that increase homelessness drug busts that increase drug related crime or food aid that increases starvation How do these unintended consequences come about and how can we avoid them By applying conventional thinking to complex social problems we often perpetuate the very problems we try so hard to solve but it is possible to think differently and get different results Systems Thinking for Social Change enables readers to contribute more effectively to society by helping them understand what systems thinking is and why it is so important in their work It also gives concrete guidance on how to incorporate systems thinking in problem solving decision making and strategic planning without becoming a technical expert Systems thinking leader David Stroh walks readers through techniques he has used to help people improve their efforts to end homelessness improve public health strengthen education design a system for early childhood development protect child welfare develop rural economies facilitate the reentry of formerly incarcerated people into society resolve identity based conflicts and more The result is a highly readable effective guide to understanding systems and using that knowledge to get the results you want

Systematic Thinking for Social Action: a Review, 1972

Social Work Practice Benyamin Chetkow-Yanoov, 1997 Replete with numerous diagrams charts tables and exercises the second edition of Social Work Practice A Systems Approach brings alive the systems model of social work practice This user friendly guide will allow you to integrate micro and macro modes of intervention sensitize your practice enhance your conflict

resolution skills and analyze system environment structures and currents With its outline of a one semester master s level course in systems analysis and its discussion of the 20th century paradigm shift from reductionism to wholeness Social Work Practice A Systems Approach Second Edition will be a great asset to social workers both within and beyond the classroom

Community Action Leaders Beverly Bunch,Dalitso Sulamoyo,2016-08-05 Examines what leaders view as their major roles responsibilities and challenges and offers ideas about how leaders can motivate and guide their employees and prepare for leadership succession Direct quotes from the local leaders make the book more interesting to read and help convey what the leaders view as important Case studies illustrate the resiliency of these leaders in addressing the needs of their communities while building a sustainable agency Evaluates different perspectives regarding whether nonprofit organizations should engage in for profit activities to generate unrestricted revenues Explores advancements and challenges in assessing the performance of organizations and programs that are designed to help low income people become self sufficient Promotes discussion with questions at the end of each chapter that are designed to encourage the readers to reflect on the material in the chapter and think about the pros and cons of different policy options and actions These questions could serve as the basis for a class discussion among students or could be incorporated into training or staff meetings for human service professionals Written in a nontechnical manner and includes a chapter on the history and evolution of Community Action agencies for readers who are unfamiliar with Community Action and the War on Poverty

Systematic Thinking for Social Action Robert H. Haveman,1972

Social Work Management and Leadership John Lawler,Andy Bilson,2009-10-16 Management and leadership are increasingly important within the organisation and delivery of social care services and now form part of the post qualification framework for social workers Yet whilst there is a relatively broad understanding of management concepts and their application in social care their foundations often go unchallenged both by students and managers Furthermore leadership is open to a wide range of interpretations and is often ill defined with the expectation that we share a common understanding of the term This text promotes an appreciation of the development of management and leadership thinking and the different themes which inform current ideas It considers these topics from a range of theoretical standpoints in order to stimulate readers to consider their own experience and expectations of management and leadership It then demonstrates

how these standpoints might promote innovative approaches to management and leadership within social care organisations and ways in which such organisations might then develop The aim of this challenging text is to encourage critical and informed reflection on current practice Social Work Management and Leadership is essential reading for students of management and leadership in social care as well as being an invaluable resource for managers who simply wish to consider new approaches to their practice *Journal of Intergroup Relations* ,1972 *Systematic Thinking for Social Action* ,1971

Confronting Values in Policy Analysis Frank Fischer,1987-06 Confronting Values in Policy Analysis questions the pursuit of value neutrality in policy analysis and argues for the integration of empirical and normative methods of analysis The contributors analyse the emerging ethical issues the practice of policy analysis theoretical and methodological issues involved in the normative work of policy analysts and the central questions of ethical responsibility Journal of Research and Development in Education ,1974 Some numbers include the proceedings of various conferences on education held at the University of Georgia **A London Bibliography of the Social Sciences** ,1973 Vols 1 4 include material to June 1 1929
