Knowledge of Life Kaye Price, 2015-09-17 Knowledge of Life is the first textbook to provide students with a comprehensive guide to Aboriginal and Torres Strait Islander Australia. The result of extensive research and experience, it offers fresh insights into a range of topics and most importantly is written by Aboriginal and Torres Strait Islander academics. It addresses topics ranging from history and reconciliation to literature and politics to art, sport and health. It presents social, cultural and political perspectives on these areas in a manner that is accessible to undergraduate students from a range of backgrounds and academic disciplines. Each chapter opens with a précis of the author's journey to engage students and offer them an insight into the author's experiences. These authentic voices encourage students to think about the wider issues surrounding each chapter and their real-life implications. This timely publication emphasises the importance of relationships between non-Indigenous and Aboriginal and Torres Strait Islander cultures. Carving Out a Future A. B.

Cunningham, Bruce Morgan Campbell, Brian Murray Belcher, Unesco, Royal Botanic Gardens, Kew, 2005. Very little has yet been written about the cultural or economic contributions of woodcarving to people's livelihoods or the consequences of felling hardwood and softwood trees for the international woodcarving trade. Carving Out a Future is the first examination of this trade and its critical links to rural livelihoods, biodiversity conservation, forestry and the international trade regime. A range of case studies from Australia, Bali, India, Africa and Mexico provides a lens for examining the critical issues relating to the significant impacts of woodcarving on forests, conservation efforts, the need to promote sustainable rural livelihoods and efforts to promote trade so that skilled artisans in developing countries get a fair economic return.
