Tagebuch Der Straße:

Tagebuch der Straße ,1983 **Walter Benjamin** Esther Leslie,2000-05-20 Esther Leslie s path breaking study of Walter Benjamin is unlike any other book presently available in English on Benjamin in seeking to make a case for a more politicised reading of Benjamin s oeuvre In looking at the entirety of Benjamin s work rather than the four or five essays available in English which tend to form the Benjamin canon Leslie offers powerful new insights into a key twentieth century political thinker correcting the post structuralist bias that has characterised so much Benjamin scholarship and repositioning Benjamin s work in its historical and political context In her examination of Benjamin s commentary on the politics and aesthetics of technology from Benjamin s work on nineteenth century industrial culture to his analyses of the Nazi deployment of the bomber Esther Leslie re contextualises Benjamin s writings in a lucid and cogently argued new study
