Taipans Hong Kongs Merchant Princes:

The Taipans Colin N. Crisswell, 1991 The Taipans is a popular account of Hong Kong's merchant princes from the origins of the first trading houses in eighteenth century Canton and Macau to the beginning of the First World War. The early taipans, hard-headed business men from Britain, the USA and India, built up immense fortunes from the opium trade. In the 1830s a single company, Jardine Matheson, controlled one third of China's foreign trade. In later years some of the original trading houses diversified successfully while others crashed into bankruptcy. At the same time a class of Chinese middlemen and merchants grew up establishing the foundations of Hong Kong's influential Chinese business class. First published in 1981, The Taipans is reissued with a completely new final chapter on Hong Kong's contemporary taipans. **The Taipans, Hong Kong's Merchant Princes** Colin N. Crisswell, 1981

Foreign Communities in Hong Kong, 1840s-1950s C. Chu, 2005-10-06 This collection of essays describes adaptations of minority ethnic groups to cross-cultural situations in Hong Kong from the 1840s through the 1950s. It aims to portray Hong Kong history through the perspectives of foreign communities: the British, Germans, Americans, Indians, and Japanese, and to understand how they perceived the economic situation, political administration, and culture of the colony. **Tycoons In Hong Kong: Between Occupy Central And**

Beijing Tai Wei Lim, Xiaojuan Ping, 2016-07-21 This book seeks to survey the role of tycoons in Hong Kong's socio-political and socioeconomic developments. Summoned to Beijing just before the onset of the territory's longest social movement, it highlights the tycoons' symbolic intermediary role between Beijing's elite and the people of Hong Kong. Also investigated is the unwritten social contract between Beijing's elite and Hong Kong society that the tycoons will be rewarded economically or left alone to conduct their business activities if they remain compatible with Beijing's policy directions or at least remain neutral in contentious issues and facilitate policy implementation if necessary. Tycoons in Hong Kong has three research objectives: first, in understanding the roles that tycoons play in Hong Kong, it is necessary to understand Beijing's crafted political and social spaces for Hong Kong's economic elites to exert their influence. Second, it examines the integrated roles that the tycoons play as consultative members of the Chinese one-party socio-political structures. Third, it presents the humanized side of the tycoons, highlights the positive contributions that tycoons make to Hong Kong and mainland China, and deconstructs the idea of a hegemonic tycoon class by emphasizing their heterogeneity. The Unknown City Iain Borden, 2002 A look beyond design process and buildings aimed at discovering new ways of looking at the urban experience. **Social Security Policy in Hong Kong** Chak Kwan Chan, 2011-09-16 For more than four decades, free market economists and right-wing politicians have touted Hong Kong as a model of capitalism and a market economy success story. Social Security Policy in Hong Kong: From British Colony to Special Administrative Region of China by Chak Kwan Chan argues that Hong Kong's capitalism is not the result of democratic choice but the consequence of an administrative-led polity that has had suppressed

democracy limited trade unions activities and manipulated traditional Chinese welfare ideologies to maintain a small government Social Security Policy in Hong Kong is the first book that systematically analyzes the dynamic relationships between Hong Kong's polity Chinese welfare ideologies and social security provisions from British colonial rule to China's special administrative region

Political Change and the Crisis of Legitimacy in Hong Kong Ian Scott, 1989 The Sino-British agreement and the resumption of Chinese sovereignty over Hong Kong in 1997 have posed fundamental questions about the future of that state and the political and individual liberties which Hong Kong citizens will or will not enjoy under the new order A fundamental question is whether a capitalist economy guaranteed by the agreement can exist in Hong Kong after 1997 without the supervisory role of the capitalist state and the implied relationship with the population To explore this question it is necessary to know how the state in Hong Kong emerged the measures it uses to attain its goals and how autonomous it has been from Britain and China and from popular political demands

Diasporas large scale ethnic migrations have been a source of growing concern as we try to understand the nature of community identity and nationalism Traditionally diaspora communities have been understood to be pariah communities and most work on diasporas has focused on specific groups such as the Jewish or African Diaspora This book is unique in arguing against traditional interpretations and in taking a comparative look at a range of diasporas including the Jewish Arab Chinese Japanese Indian Maltese Greek and Armenian diasporas Taking the past four centuries into consideration the authors examine diaspora trading networks across the globe on both a regional and international level They investigate the common patterns and practices in the enterprises of diaspora peoples and entrepreneurs The regions covered include Western Europe the Mediterranean South West Asia and the Indian Ocean and South East Asia Global networks of diaspora trading groups were crucial to international trade well before the twentieth century yet because they were not part of established institutions they have remained elusive to economists sociologists and historians Through an understanding of diaspora
