**The Taj Mahal: A History** John David Cooper,2017-03-21 Everyone has seen photographs of the Taj Mahal The massive bulbous central dome the four slender minarets the shimmering marble the long reflecting pool the manicured gardens all seem too striking for adequate description and proper appreciation But there is more to the Taj than its beauty The world s best known mausoleum celebrates the love story of the seventeenth century Moghul emperor Shah Jahan and his queen Mumtaz Mahal They fell in love at first sight and were married for nineteen years She ruled at his side as almost an equal but her death in childbirth in 1631 left him wild with grief and determined to build a monument to their devotion Behind this romantic tale is the saga of the Moghul emperors who swept into North India only a century earlier By the time of Shah Jahan they had established an absolute monarchy comparable to Louis XIV s The Moghul court was rich cruel and omnipotent As descendants of Tamerlane and Genghis Khan they relished bloody combat savage sports and hideous torture of their victims In the absence of primogeniture brother fought brother for the throne it was the law of the throne or coffin But less than a century after Shah Jahan was deposed by his ruthless son the dynasty was in decline and ripe for conquest by Great Britain For a time it seemed like the Taj like the Moghuls would vanish Only in the twentieth century was the Taj restored to something of its former glory Here is the dramatic and often tragic story of the Taj and the men and women of the dynasty that created it

Rahul had wondered how someone could love their beloved so much that their dedication to them became one of the wonders of the world. Faraaz Kazi, modern novelist, says Taj Mahal is Arabic for crown of palaces and the name could not be more fitting for one of the most instantly recognizable buildings in the world. Constructed over a span of about 20 years in the mid 17th century as a mausoleum for the wife of Emperor Shah Jahan, the Taj Mahal is aptly described by UNESCO which designated it a World Heritage site as the jewel of Muslim art in India and one of the universally admired masterpieces of the world's heritage. Indeed, the Taj Mahal is truly a global icon because it masterfully fused the artistic and architectural elements of several cultures including Indian, Ottoman, Persian, and Islamic cultures across the region. While the marble dome is the first feature that pops out about the Taj Mahal, the careful layout of the entire structure is also incredibly impressive and it took thousands of laborers several years to work on the other features from the gardens to the calligraphy inscribed on the exterior. The Taj Mahal also includes other buildings including a mosque and other tombs and mausoleums for people close to the emperor. Not surprisingly, given the scope and quality of the work, the Taj Mahal has fascinated people around the world for centuries and naturally all sorts of myths about it have sprung up. For the most part, however, people are simply drawn to it today as one of the premiere tourist sites in the world and millions of people come from around the world to visit it every year. The Taj Mahal: The History of India's Most Famous Monument chronicles the origins, construction, and history of the Taj Mahal over the last 350 years. Along with pictures of important people, places, and events, you will learn about one of the world's most famous memorials like you never have before. **The Cyclopedia of India**, 1907
