France Since 1945 Robert Gildea,2023 This book provides an introduction to the momentous events of the last 50 years in French political history the legacy of the German Occupation the effects of the Algerian war and the rise of Islam and the loss of domination in Europe    France Since 1945 ,2010    France and Its Empire Since 1870 Alice L. Conklin,Sarah Fishman,Robert Zaretsky,2015 Providing an up to date synthesis of the history of an extraordinary nation one that has been shrouded in myths many of its own making France and Its Empire Since 1870 seeks both to understand these myths and to uncover the complicated and often contradictory realities that underpin them It situates modern French history in transnational and global contexts and also integrates the themes of imperialism and immigration into the traditional narrative Authors Alice L Conklin Sarah Fishman and Robert Zaretsky begin with the premise that while France and the U S are sister republics they also exhibit profound differences that are as compelling as their apparent similarities The authors frame the book around the contested emergence of the French Republic a form of government that finally appears to have a permanent status in France but whose birth pangs were much more protracted than those of the American Republic Presenting a lively and coherent narrative of the major developments in France s tumultuous history since 1870 the authors organize the chapters around the country s many turning points and confrontations They also offer detailed analyses of politics society and culture considering the diverse viewpoints of men and women from every background including the working class and the bourgeoisie immigrants Catholics Jews and Muslims Bretons and Algerians rebellious youth and gays and lesbians    *The Government and Politics of France* Andrew Knapp,Vincent Wright,2001 The latest revision of what is the best available guide to modern French politics

Masson, C. Schrecker, 2016-04-29 Tracing the evolution of French sociology from the early twentieth century to the present day this insightful book brings to the fore the renowned origins but relatively slow development of the discipline in France Divided into four chronological sections it focuses on the social changes and institutional transformations that have impacted on the history of sociology in France as it relates to both higher education and research In doing so it draws attention to three major features of French sociology the imbalance between theory and method caused by its philosophical roots the difficulty of locating it in relation to other disciplines and the close links between sociology and political thought and action French Vocal Literature Georgine Resick, 2017-12-22 French Vocal Literature Repertoire in Context introduces singers to the history and performance concerns of a vast body of French songs from the twelfth century to the present focusing on works for solo voice or small vocal ensembles with piano or organ accompaniment suitable for recitals concerts and church performances Georgine Resick presents vocal repertoire within the context of trends and movements of other artistic disciplines such as poetry literature dance painting and decorative arts as well as political and social currents pertinent to musical evolution Developments in French style and genre and comparisons among individual composers and national styles are traced through a network of musical influence French Vocal Literature is ideally suited for voice teachers and coaches as well as student and professional performers The companion website frenchvocalliterature.com provides publication information a discography links to online recordings and scores a chronology of events pertinent to music a genealogy of royal dynasties and a list of governmental regimes Contemporary France David L. Raymond,Tariq Modood,2007-11-09 Britain and France have divergent attitudes to the issue of minority identities Whilst the British emphasise multiculturalism allowing that it is possible to combine race or faith with a British identity the French view such a combination of religion and nationality as unacceptable However recent events have challenged these traditional approaches to minorities The London bombings of July 2005 and the fact that the perpetrators were British threw into question the assumption that the elevation of difference could lead to community cohesion whilst riots in Birmingham in October 2005 between black and Asian communities further highlighted tensions Similarly French certainties about their proactive attitude to the integration of minorities into a national community unified by common value were profoundly shaken by rioting in urban areas
