John,2018-05-22 A thrilling tale of abduction and escape in North Korea highly entertaining The Washington Post A propulsive and ambitious thriller about a woman trying to rescue her twin sister from captivity in North Korea and the North Korean citizens with whom she forms an unlikely alliance Star of the North opens in 1998 when a Korean American teenager is kidnapped from a South Korean beach by North Korean operatives Twelve years later her brilliant twin sister Jenna is still searching for her and ends up on the radar of the CIA When evidence that her sister may still be alive in North Korea comes to light Jenna will do anything possible to rescue her including undertaking a daring mission into the heart of the regime Her story is masterfully braided together with two other narrative threads In one a North Korean peasant woman finds a forbidden international aid balloon and uses the valuables inside to launch a dangerously lucrative black market business In the other a high ranking North Korean official discovers to his horror that he may be descended from a traitor a fact that could mean his death if it is revealed As the novel progresses these narrative strands converge and connect in surprising ways ultimately building to an explosive and unforgettable climax **Phenomenology of the Winter-City** Abraham Akkerman,2016-01-12

This book explores how the weather and city form impact the mind and how city form and mind interact It builds on Merleau Ponty's contention that mind the human body and the environment are intertwined in a singular composite and on Walter Benjamin's suggestion that mind and city form in mutual interaction through history have set the course of civilization Bringing together the fields of philosophy urbanism geography history and architecture the book shows the association of existentialism with prevalence of mood disorder in Northern Europe at the close of Little Ice Age It explains the implications of city form and traces the role of the myths and allegories of urban design as well as the history of gender projection onto city form It shows how urbanization in Northern Europe provided easier access to shelter yet resulted in sunlight deprivation and yielded increasing incidence of depression and other mental disorder among the European middle class The book uses the examples of Kierkegaard Nietzsche Dostoevsky and Kafka to show how walking through the streets squares and other urban voids became the informal remedy to mood disorder a prominent trait among founders of modern Existentialism It concludes by describing how the connection of anguish and violence is relevant to winter depression in cities in North America in particular Winter Henry David Thoreau,1891 Hermetic chemistry Paracelsus,1894 The West Shore
