Emotion, Depth, and Flesh: A Study of Sensitive Space Suzanne L. Cataldi,1993-09-30 This book philosophically explores the topic of emotional depth The insights of James J Gibson and Maurice Merleau Ponty on the nature of perceived depth are compared and then extended to the dynamics of emotional experience and alterations in self understanding

Metaphor across Time and Conceptual Space James J. Mischler, III,2013-09-18 Contemporary linguistic forms are partially the product of their historical antecedents and the same is true for cognitive conceptualization The book presents the results of several diachronic corpus studies of conceptual metaphor in a longitudinal and empirical mixed methods design employing both quantitative and qualitative analysis measures the study design was informed by usage based theory The goal was to investigate the interaction over time between conceptualization and cultural models in historical English speaking society The main study of two linguistic metaphors of anger spans five centuries A D 1500 to 1990 The results show that conceptualization and cultural models understood as non autonomous encyclopedic knowledge work together to determine

both the meaning and use of a linguistic metaphor In addition historically a wide variety of emotion concepts formed a complex cognitive array called the Domain Matrix of emotion The implications for conceptual metaphor theory research methodology and future study are discussed in detail **Opera, Emotion, and the Antipodes Volume I** Jane

Davidson, Michael Halliwell, Stephanie Rocke, 2020-12-29 There can be little doubt that opera and emotion are inextricably linked From dramatic plots driven by energetic producers and directors to the conflicts and triumphs experienced by all associated with opera's staging to the reactions and critiques of audience members emotion is omnipresent in opera Yet few contemplate the impact that the customary cultural practices of specific times and places have upon opera's ability to move emotions Taking Australia as a case study this two volume collection of extended essays demonstrates that emotional experiences discourses displays and expressions do not share universal significance but are at least partly produced defined and regulated by culture Spanning approximately 170 years of opera production in Australia the authors show how the emotions associated with the specific cultural context of a nation steeped in egalitarian aspirations and marked by increasing levels of multiculturalism have adjusted to changing cultural and social contexts across time Volume I adopts an historical predominantly nineteenth century perspective while Volume II applies historical musicological and ethnological approaches to discuss subsequent Australian operas and opera productions through to the twenty first century With final chapters pulling threads from the two volumes together *Opera Emotion and the Antipodes* establishes a model for constructing emotion history from multiple disciplinary perspectives *Easy Star Lessons* Richard Anthony Proctor, 1881 Knowledge, 1883

Emotion, Theory, Research, and Experience: Emotions in early development Robert Plutchik, Henry Kellerman, 1980 **The Proficiency and Advancement of Learning :apophthegms** Francis Bacon, 187? **Select Notes on the International Sunday School Lessons ...**, 1891 *A Guide to the Study of Literary Criticism* Angeline P. Carey, 1895 **Video Rating Guide for Libraries**, 1991 The Latter-Day Saints' Millennial Star, 1876 Alden's Manifold Cyclopedia of Knowledge and Language, 1892 *Lines of Thinking, Skills, Emotion, Creative Processes, Individual Differences and Teaching Thinking* K. J. Gilhooly, M. T. G. Keane, R. H. Logie, G. Erdos, 1990-02-02 Part of a two volume work taken from the proceedings of the International Conference on Thinking held at the University of Aberdeen in August 1988 this book explores current empirical and theoretical research in human thinking This volume particularly considers such complex processes as skilled thinking emotion and thought creative processes individual differences and teaching thinking The book has been organized into themes so that topics of increasing complexity are considered in the later sections of text
