 need for a technological guide in a field that has experi enced an almost explosive increase in the last two decades No other
 book available to food scientists provides detailed coverage of the ingredients processes products and equipment of nearly
 every type of snack food made today Since publication of the First Edition many changes have occurred in the snack industry
 making necessary a thorough revision of all chapters The text illustrations and bibliographies have all been brought up to
 date My goal has been to provide an accurate and reasona bly detailed description of every major snack processing method
 and prod uct current in the United States If any reader believes I have omitted an important topic I would be glad to learn
 of it in the hope that there will be a Third Edition in which I can incorporate the suggested additions One of the main
 purposes of this volume is to provide a source for answers to problems that the technologist encounters in the course of his
 or her daily work Extensive bibliographies in which the emphasis is on recent publications extending into 1983 should permit
 the reader to resolve more complex or new questions With these bibliographies as guides the food technologist can delve as
 deeply as he or she wishes into specialized aspects of the subject while at the same time the reader who is interested in the
 broad overall picture will not be distracted by excess detail *Crave* Maureen McKeon,2007 *Crave A Passion for Chocolate*
