LANGUAGE IN CANADA. VON MARK M. ORKIN. Mark M. Orkin, 1971 *The English Language in Canada* Christian Hensgens, 2004-01-27 Seminar paper from the year 2002 in the subject English Language and Literature Studies Linguistics grade C University of Cologne Philosophy Faculty course English Worldwide language English abstract The flag is the symbol of the nation's unity for it beyond any doubt represents all the citizens of Canada without distinction of race language belief or opinion said Maurice Bourget Speaker of the Senate on Parliament Hill in Ottawa on February 15 1965 thereby lowering the Canadian Red Ensign and raising the new maple leaf flag 1 Defining the flag as a symbol of the nation's unity Bourget touches upon a question of unity not easy to answer in context of a country like Canada As a multinational and multicultural country Canada's search for unity with regard to the language of its citizens is not easy to make out as a question of unity in most cases is a question of identity as well Whenever we focus on a nation's unity we will have to focus on aspects defining the nation chiefly its language enabling communication between its citizens and the identity resulting from the use of a language This work will put a focus on the the language used in Canada and search for a Canadian identity It will provide some historical facts and will then focus on the official language's spoken in Canada their differences and similarities to US and UK English Furthermore the problems resulting from Canada's bilingualism will be portrayed and it will be asked if and how Canadians experience their English as a separate entity **The English Language in Canada Canadian Subject Headings** National Library of Canada, 1992 Recueil. Documentation sur Paul Lacroix, The Identity of Canadian English Kirsten Vera van Rhee, 2011-08-23 Seminar paper from the year 1995 in the subject American Studies Linguistics grade 2 0 Johannes Gutenberg University Mainz Englische Philologie course Language and Identity language English abstract 1 Introduction The linguistic situation of Canadian identity has been subject of numerous debates and still there seems to be no real agreement on certain subject matters Experts say that for historical reasons Canadian English is the type of English associated with Southern Ontario formerly Upper Canada that has become the basis for a national norm an imperfectly described but recognized standard across Canada As such it has spread widely across the country to be heard with increasing frequency among the educated non regionalized young in every province from the Ottawa River to the Pacific including Newfoundland However opinions differ as to what really constitutes the uniqueness of Canadian English The problem of a separate Canadian linguistic identity becomes best apparent in the various ways in which Canadian English has been defined by linguists as quoted by G. Leach Canadian English is a fairly recent hybrid which resembles American English in some respects and British English in other while exhibiting much that is singularly Canadian It is in fact the composite of these characteristics which gives Canadian English its unique identity Avis 1973 43 Canadian English is not a composite of archaic or rustic features or a potpourri of British and American speechways but a true national language Bailey 1982 152 This paper does not focus on the attempt to reconcile opposing views but rather tries to show how far the Canadian English is both like and unlike American English as it resembles and differs from British English yet at the same time is distinctively

Canadian existing in its own rights and owing its existence to the Canadians who have made it what it is. However in their struggle for a distinct linguistic identity Canadians tread an apparently arbitrary path between British and American usage thus Orkin writes with a strong leaning toward the American pattern. Though the development of Canadian English towards a distinct linguistic identity is considered to be not yet complete it is the aim of the following to introduce the main linguistic characteristics of Canadian speech focusing on the impossibility of separating phonological and grammatical Canadian features from the British and especially American influence. *Varieties of Modern English and Canadian English* Fabian Zschiesche, 2017-06-20 Seminar paper from the year 2009 in the subject English Language and Literature Studies Linguistics grade 2.0 Friedrich Alexander University Erlangen Nuremberg language English abstract In this text the author will try to explain what a variety of a language actually is and what other varieties of Modern English exist before he goes into further detail explaining the origins of Standard Canadian English and its distinctive linguistic features which are in fact very difficult to detect if it is not known that they exist. **Canadian Speech Communication Journal**, 1972 Modern Canadian English Usage Matthew Henry Scargill, Canadian Council of Teachers of English, 1974 A study of the spoken language of school students and their parents across Canada. **Canadian History: Beginnings to Confederation** Martin Brook Taylor, Doug Owram, 1994 In these two volumes which replace the Reader's Guide to Canadian History experts provide a select and critical guide to historical writing about pre and post Confederation Canada with an emphasis on the most recent scholarship.
