Art & Language International Robert Bailey, 2016-05-19 In Art Language International Robert Bailey reconstructs the history of the conceptual art collective Art Language situating it in a geographical context to rethink its implications for the broader histories of contemporary art. Focusing on its international collaborations with dozens of artists and critics in and outside the collective between 1969 and 1977, Bailey positions Art Language at the center of a historical shift from Euro American modernism to a global contemporary art. He documents the collective's growth and reach from transatlantic discussions on the nature of conceptual art and the establishment of distinct working groups in New York and England to the collective's later work in Australia, New Zealand, and Yugoslavia. Bailey also details its publications, associations with political organizations, and the internal power struggles that precipitated its breakdown. Analyzing a wide range of artworks, texts, music, and films, he reveals how Art Language navigated between art worlds to shape the international profile of conceptual art. Above all, Bailey underscores how the group's rigorous and interdisciplinary work provides a gateway to understanding how conceptual art operates as a mode of thinking that exceeds the visual to shape the philosophical, historical, and political.

Language, Identity and Diversity in Picturebooks Nicola Daly, 2024-10-28 This book presents a range of perspectives on the way language, diversity, and identity are reflected in New Zealand children's literature based on the published research of Nicola Daly, an associate professor in the Division of Education of the University of Waikato and her colleagues. The book is organised into two sections. The first section examines the use of Te Reo Māori and English in the text of New Zealand picturebooks, exploring the linguistic landscape of Māori-English bilingual picturebooks. The second section, 'The Pedagogical Potential of Picturebooks', explores how picturebooks featuring Māori-English, New Zealand Sign Language (NZSL), and Pacific languages reflect identity and support diversity in society. Research from several educational contexts, ranging from kindergarten to university, where picturebooks are used to support learning language and learning about language, is also discussed. Themes of language, identity, and diversity are explored throughout the two sections and brought together in the concluding chapter's discussion of the power of picturebooks. This book will be of interest to scholars in children's literature and education; it may also be relevant to scholars in linguistics, library and information studies, cultural studies, and media and communication studies.
