**Special Circuits Ready-reference** John Markus,1982      **What Every Engineer Should Know about Engineering Information Resources** Schenk,1984-07-26      **ASM Ready Reference** Charles Moosbrugger,2000-01-01 Annotation

Provides materials engineers and scientists with a comparative listing of materials and their magnetic and electrical properties to aid in the materials selection process. The materials are sorted by a common materials hierarchy and their property values are given in a consistent system of International Standard and customary units. The quality of the data and source of the data also are given to enable the user to assess the data. The 36 tables survey volume conductivity at ambient temperature volume resistivity at high and low temperatures thermal coefficient of resistivity superconductors relative permeability coercive force peak induction residual induction and curie temperature.
