The Laser Video Disc Companion Douglas Pratt, 1995 **Arts Marketing** Finola Kerrigan, Peter Fraser, Mustafa Ozbilgin, 2007-03-30 Arts Marketing focuses on a variety of sectors within the arts and addresses the way in which marketing principles are applied within these outlining both the similarities and the differences that occur Relating policy to practice this contributed text demonstrates the most effective means of marketing in specific areas of the arts with each chapter having been written by a specialist in the field Although primarily focusing on the UK market the subject has global relevance and appeal and policy is evaluated on national European and supranational levels Specialist topics dealt with range from the marketing of the theatre opera and museums through to the film industry and popular music **Video Source Book**, 2006 A guide to programs currently available on video in the areas of movies entertainment general interest education sports recreation fine arts health science business industry children juvenile how to instruction **Nothin' But a Good Time** Justin Quirk, 2020-09-03 From 1983 until 1991 Glam Metal was the sound of American culture Big hair massive amplifiers drugs alcohol piles of money and life threatening pyrotechnics This was the world stalked by Bon Jovi Kiss W A S P Skid Row Dokken Motley Crue Cinderella Ratt and many more Armed with hairspray spandex and strangely shaped guitars they marked the last great era of supersize bands Where did Glam Metal come from How did it spread What killed it off And why does nobody admit to having been a Glam Metaller anymore *EcCentric Visions* Gaile McGregor, 2006-01-01 What this book represents is quite literally a slice of white Australian life By noting the patterns and parallels that emerge in a random sampling of social phenomena of widely varying types from soap operas to political behaviour Gaile McGregor has constructed a model that in its challenge to uniformitarianism is a test case in ethnographic theory Using methods ranging from the hermeneutic through the structuralist to the psychoanalytic McGregor deploys the self evidence of communal life and language to establish not only that all cultural phenomena are patterned but that this patterning is unique to and consistent across the entire system Further it not only influences but constrains the way the Australian conceptualizes codifies and expresses his her existential position Hence the Australian predilection for icons of intermediacy the verandah in architecture the bush in literature the beach in folk culture the middle ground in landscape painting the pub in everyday life This identification with buffer zones between inside and outside not only mimics the Australian s real bracketing between desert and ocean but embodies his her sense of disablement vis vis both culture and nature art and techne super ego and id all of which are coded as feminine *Field & Stream*, 2000-07 FIELD STREAM America s largest outdoor sports magazine celebrates the outdoor experience with great stories compelling photography and sound advice while honoring the traditions hunters and fishermen have passed down for generations *Animal Subjects 2.0* Jodey Castricano, Lauren Corman, 2016-12-10 Animal Subjects An Ethical Reader in a Posthuman World WLU Press 2008 challenged cultural studies to include nonhuman animals within its purview While the question of the animal ricochets across the academy and

reverberates within the public sphere *Animal Subjects 2.0* builds on the previous book and takes stock of this explosive turn. It focuses on both critical animal studies and posthumanism, two intertwining conversations that ask us to reconsider common sense understandings of other animals and what it means to be human. This collection demonstrates that many pressing contemporary social problems, how and why the oppression and exploitation of our species persist, are entangled with our treatment of other animals and the environment. Decades into the interrogation of our ethical and political responsibilities toward other animals, fissures within the academy deepen as the interest in animal ethics and politics proliferates. Although ideological fault lines have inspired important debates about how to address the very material concerns informing these theoretical discussions, *Animal Subjects 2.0* brings together divergent voices to suggest how to foster richer human-animal relations and to cultivate new ways of thinking and being with the rest of animalkind. This collection demonstrates that appreciation of difference, not just similarity, is necessary for a more inclusive and compassionate world. Linking issues of gender, disability, culture, race, and sexuality into species, *Animal Subjects 2.0* maps vibrant developments in the emergent fields of critical animal studies and posthumanist thought. *Queerness in Pop Music* Stan

Hawkins, 2015-12-07 This book investigates the phenomenon of queering in popular music and video, interpreting the music of numerous pop artists' styles and idioms. The focus falls on artists such as Lady Gaga, Madonna, Boy George, Diana Ross, Rufus Wainwright, David Bowie, Azealia Banks, Zebra Katz, Freddie Mercury, the Pet Shop Boys, George Michael, and many others. Hawkins builds his concept of queerness upon existing theories of opacity and temporality, which involves a creative interdisciplinary approach to musical interpretation. He advocates a model of analysis that involves both temporal-specific listening and biographic-oriented viewing. Music analysis is woven into this illuminating aspects of parody, nostalgia, camp, naivety, masquerade, irony, and mimesis in pop music. One of the principal aims is to uncover the subversive strategies of pop artists through a wide range of audiovisual texts that situate the debates on gender and sexuality within an aesthetic context that is highly stylized and ritualized. *Queerness in Pop Music* also addresses the playfulness of much pop music, offering insights into how discourses of resistance are mediated through pleasure. Given that pop artists, songwriters, producers, directors, choreographers, and engineers all contribute to the final composite of the pop recording, it is argued that the staging of any pop act is a collective project. The implications of this are addressed through structures of gender, ethnicity, nationality, class, and sexuality. Ultimately, Hawkins contends that queerness is a performative force that connotes futurity and utopian promise. **Field and Stream**, 2000 *The Hollywood Reporter*, 1992 **Educational Psychology** Richard C.
