Speech Power Adelbert Brown, 1962 **Powers of Expression, Expressions of Power** Andrew Laird, 1999-11-18 Can a speaker's words ever be faithfully reported History philosophy ethnography political theory linguistics and literary criticism all involve debates about discourse and representation By drawing from Plato's theory of discourse the lively analysis of speech presentation in this book provides a coherent and original contribution to these debates and highlights the problems involved when speech becomes both the object and the medium of narrative representation The opening chapters offer fresh insights on ideology intertextuality literary language and historiography and reveal important connections between them These insights are then applied in specific critical treatments of Virgil's Aeneid of Petronius Satyricon and of scenes involving messengers and angels in classical and European epic Throughout this study ancient texts are discussed in conjunction with examples from later traditions Overall this book uses Latin literature to demonstrate the theoretical and ideological importance of speech presentation for a number of contemporary disciplines Progress in Speech Synthesis Jan P.H. van Santen, 1997 This collection of articles by leading researchers in each of the fields involved in text to speech synthesis provides a picture of recent work in laboratories throughout the world and of the problems and challenges that remain by providing samples of synthesized speech as well as video demonstrations for several of the synthesizers discussed the book will also allow the reader to judge what all the work adds up to that is how good is the synthetic speech we can now produce
