Speech Sucks:

Hate Speech in Asia and Europe Myungkoo Kang, Marie-Orange Rivé-Lasan, Wooja Kim, Philippa Hall, 2020-03-16 This edited collection provides a timely review of the current state of hate speech research in Asia and Europe through the comparative examples of Korea Japan and France Extending the study of hate speech studies beyond the largely western emphasis on European and US contexts dominant in the field this book's comparative framework aims to examine hate speech as a global phenomenon spanning Asian and European contexts An innovative range of nuanced empirical case studies explore hate speech by analyzing gendered hate speech and nationality French cartoon humour official counter radicalization narratives and the use of international law to inform domestic legislation in the Philippines and Japan A fresh perspective on Asian and European hate speech this book's evaluation of current of hate speech research also identifies future directions for the development of theory and method Filling a critical gap in the literature Hate Speech in Asia and Europe will appeal to students and scholars of law politics religion history social policy and social science more broadly as well as Asian Studies

[The Globalization of Hate](#) Jennifer Schweppe, Mark Austin Walters, 2016-05-26 The Globalisation of Hate Internationalising Hate Crime is the first book to examine the impact of globalisation on our understanding of hate speech and hate crime Bringing together internationally acclaimed scholars with researchers policy makers and practitioners from across the world it critically scrutinises the concept of hate crime as a global phenomenon seeking to examine whether hate crime can or should be conceptualised within an international framework and if so how this might be achieved Beginning with the global dynamics of hate the contributions analyse whether hate crime can be defined globally whether universal principles can be applied to the phenomenon how hatred is spread and how it impacts upon our global society The middle portion of the book moves beyond the broader questions of globalisation to jurisdictional examples of how globalisation impacts upon our understanding of and also our responses to hate crime The chapters explore in greater detail what is happening around the world and how the international concepts of hate crime are being operationalised locally drawing out the themes of globalisation and internationalisation that are relevant to hate crime as evidenced by a number of jurisdictions from Europe the US Asia and Africa The final part of the book concludes with an examination of the different ways in which hate speech and hate crime is being combatted globally International law internet regulation and the use of restorative practices are evaluated as methods of addressing hate based conflict with the discussions drawn from existing frameworks as well as exploring normative standards for future international efforts Taken together these innovative and insightful contributions offer a timely investigation into the effects of hate crime offering an interdisciplinary approach to tackling what is now a global issue It will be of interest to scholars and students of criminology sociology and criminal justice as well as criminal justice practitioners police officers and policy makers

1 Test Test Test test **Online Misogyny as Hate Crime** Kim Barker, Olga Jurasz, 2018-12-07 The ideal of an inclusive and participatory Internet has been undermined by the

rise of misogynistic abuse on social media platforms However limited progress has been made at national and to an extent European levels in addressing this issue In England and Wales the tackling of underlying causes of online abuse has been overlooked because the law focuses on punishment rather than measures to prevent such abuses Furthermore online abuse has a significant impact on its victims that is underestimated by policymakers This volume critically analyses the legal provisions that are currently deployed to tackle forms of online misogyny and focuses on three aspects firstly the phenomenon of social media abuse secondly the poor and disparate legal responses to social media abuses and thirdly the similar failings of hate crime to tackle problems of online gender based abuses This book advances a compelling argument for legal changes to the existing hate crime and communications legislation

Toolkit on combating hate speech during electoral processes Council of Europe,2022-12-16

Tools to counter hate speech that undermines free electoral competition Everyone has the right to freedom of expression This right shall include freedom to hold opinions and to receive and impart information and ideas without interference by public authority and regardless of frontiers Article 10 of the European Convention on Human Rights Freedom of expression is enshrined in the European Convention on Human Rights and protects citizens from interference with their right to freely express their opinions This freedom is essential when it comes to the electoral process which like any competition has a strict framework of rules Freedom of expression must not give rise to hate speech that would undermine the electoral process by polluting the campaign and political debate necessary for voters to make an informed choice This toolkit is intended to explain the international standards applicable in this respect provide tools and strategies that can be used by election management bodies to counter hate speech harmful to free electoral competition and describe the Georgian experience in this area

Misogyny as Hate Crime Irene Zempi,Jo Smith,2021-08-26 Misogyny as Hate Crime explores the background nature and consequences of misogyny as well as the legal framework and UK policy responses associated with misogyny as a form of hate crime Taking an intersectional approach the book looks at how experiences of misogyny may intersect with other forms of hate crime such as disability Islamophobia antisemitism and transphobia From the sexist and derogatory comments about women by former US President Donald Trump to legislative changes in Chile and Peru making street harassment illegal misogyny presents a challenge to scholars practitioners policy makers and women globally The increasing importance of the internet has seen misogyny move into these digital spaces but has also provided a platform for movements such as MeToo and TimesUp highlighting the scale of sexual harassment and abuse In 2016 Nottinghamshire Police in partnership with Nottingham Women's Centre became the first force in England and Wales to record misogyny as a hate crime Since then other police forces have introduced similar schemes to tackle misogyny More recently the Law Commission of England and Wales has undertaken a review of the legislation on hate crime and in their consultation paper of proposals for reform have suggested adding sex or gender to the protected characteristics In March 2021 the Government announced that police forces in England and Wales will be required

to record crimes motivated by hostility based on sex or gender from this autumn The murder of Sarah Everard has been a watershed moment in the Government's response to violence against women Sarah Everard's kidnap and murder who went missing while walking home from a friend's flat in South London on 3 March 2021 ignited a national conversation about violence against women Against this background the book speaks both to the proposed reforms of the hate crime legislation around misogyny and the broader issues around experiences of and legal responses to misogyny It showcases the work of leading scholars in this area alongside that of activists and practitioners whose work has been invaluable in opening up public discussion on misogynistic hate crime and encouraging wider social change In recognising the intersections of different forms of prejudice the book provides an innovative contribution to these hate debates highlighting the complexities of creating separate strands of hate crime Providing a comprehensive understanding of the debates around inclusion of misogyny as a form of hate crime this ground breaking book will be of great interest to students scholars and activists interested in gender hate crime feminism criminology law policing and sociology [Combating Hate](#) Billie Murray,2022-05-03

The United States has a hate problem In recent years hate speech has led not only to deep division in our politics but also to violence murder and even insurrection And yet established constitutional jurisprudence holds that all speech is protected as content neutral and that the proper democratic response to hateful expression is not regulation but more speech So how can ordinary citizens stand up to hate groups when the state will not In *Combating Hate* Billie Murray proposes an answer to this question As a participant in anti racist and anti fascist protests including demonstrations against the Ku Klux Klan neo Nazis and the Westboro Baptist Church Murray witnessed firsthand the limitations of the more speech approach as well as the combative tactics of anti fascist activists She argues that this latter group commonly known as antifa embodies a radically different strategy for combating hate one that explodes the myth of content neutrality and reveals hate speech to be a tactic of fascist organizing with very real highly anti democratic consequences Drawing on communication theory and this on the ground experience Murray presents a new strategy which she calls allied tactics rooted in the commitment to affirm support and even protect those who are the victims of hate speech Engaging and sophisticated *Combating Hate* contends that there are concrete ways to fight hate speech from the front lines Murray's urgent argument that we reconsider how to confront and fight this blight on American life is essential reading for the current era [Disability Hate Crimes](#) Mark Sherry,2016-05-23

Disability hate crimes are a global problem They are often violent and hyper aggressive with life changing effects on victims and they send consistent messages of intolerance and bigotry This ground breaking book shows that disability hate crimes do exist that they have unique characteristics which distinguish them from other hate crimes and that more effective policies and practices can and must be developed to respond and prevent them With particular focus on the UK and USA's contrasting response to this issue this book will help readers to define hate crimes as well as place them within their wider social context It discusses the need for legislative recognition and essential

improvements on the reporting of incidents and assistance for individual victims of these crimes as well as the need to address the social exclusion of disabled people and the negative attitudes surrounding their condition

Radical Critiques of the Law Stephen M. Griffin, Robert C. L. Moffat, 1997 The past two decades have seen an outpouring of work in legal theory that is self consciously critical of aspects of American law and the institutions of the liberal state In this lively volume eminent scholars in philosophy law and political science respond to this recent scholarship by exploring what constitutes a radical critique of the law examining such theories as critical legal studies feminist theory and theories of difference and critical race theory The authors consider whether the critiques advanced in recent legal theory can truly be called radical and what form a radical critique of American law should take Writing at the cutting edge of the critique of critical legal theory they offer insights first on critical legal scholarship then on feminist political and legal theory A third group of contributions questions the radicalness of these approaches in light of their failure to challenge fundamental aspects of liberalism while a final section focuses on current issues of legal reform through critical views on criminal punishment including observations on rape and hate speech Each major essay describes the underlying

principles in the development of a radical legal theory and addresses unresolved questions relating to it while accompanying commentaries present conflicting views The resulting dialogue explores wide ranging issues like equity value relativism adversarial and empathic legal advocacy communitarianism and the social contract impartiality and contingency natural law and corrective justice A common thread for many of the articles is a focus on the social dimension of society and law which finds the individualism of prevailing liberal theories too limiting Radical Critiques of the Law is particularly unique in presenting critical and feminist approaches in one volume along with skeptical commentary about just how radical some critiques really are Proposing alternative critiques that embody considerably greater promise of being truly radical it offers provocative reading for both philosophers and legal scholars by showing that many claims to radicalism are highly problematic at best Hate Crime Robert J. Kelly,Jess Maghan,1998 These twelve previously unpublished essays explore the international phenomenon of hate crime examining the socio psychological dynamics of these crimes and the settings in which they occur the relationships between offenders and their victims the emotional states of the participants and the legal and law enforcement responses to these crimes The essays address religious racial ethnic and sexual crimes in the United States Latin America Africa Europe and the Middle East The essayists provide historical reviews of the problems and the ways local authorities understand and cope with the dilemmas as well as prognoses about the persistence of hate crime and the measures that can be taken to control and contain it
