## **Speed Racer Fastest Car On Earth:**

*Bonneville's Women of Land Speed Racing* "LandSpeed" Louise Ann Noeth, 2021-07-12 At Bonneville record holders must first earn the right to present themselves on the starting line. This requires passing rigorous safety and technical checks for driver, rider and speed machine. Gender is inconsequential. Through the years more than 200 women have made the cut and donned fireproof clothing and helmets. Dozens have set land speed records 35 in excess of 200 miles per hour, six above 300 miles per hour and one deaf female racer who roared past 500 miles per hour. Equally impressive are the women who helped propel the helmeted gals into glory. Few know how many women are skilled fabricators, mechanics, crew chiefs and all-round land speed racing experts all working out on a brutal, merciless and barren sodium-soaked playa. And for decades dedicated volunteers have not only put down that all-important starting line but erected a speed village that inspired tens of thousands to visit, taunting the timing lights run after run. Since 1949 women have played an integral part. Without question land speed racing has more women actively participating and setting records than any other segment of motorsports in the world.

**The Fastest Girl on Earth!** Dean Robbins, 2021-08-10 Gear up for this high-powered picture book biography about Kitty O Neil, the stuntwoman and racecar driver who broke the women's land speed record. Kitty O Neil was a force to be reckoned with. She became deaf as a child and grew up loving sports and action. Kitty jumped, ran, raced and swam all while learning to read lips and communicating through sign language. Eventually, Kitty took a job as a stuntwoman, doing the most dangerous job on set and even filming stunts for films like *Wonder Woman*. Still, Kitty wanted more thrills. She became a racecar driver and sought to do what no woman had done before. She chose the aptly named Motivator and trained like a true champion. In 1976, Kitty and the Motivator broke the land speed record, racing at over 600 miles per hour. Kitty was a hero to fans everywhere and proved that she was truly unstoppable.

*Motorsports and American Culture* Mark D. Howell, John D. Miller, 2014-04-10 Soon after the first automobiles were introduced in the United States, auto racing became a reality. Since that time, motorsports have expanded to include drag racing, open-wheel racing, rallying, demolition derbies, stock car racing and more. Motorsports have grown to such an extent that NASCAR is now the second most-watched professional sport in America, behind only football. But motorsports are about much more than going fast and finishing first. These events also reflect our culture, our society, our values and our history. In *Motorsports and American Culture: From Demolition Derbies to NASCAR*, Mark D. Howell and John D. Miller bring together essays that examine the relevancy of motorsports to American culture and history from the late nineteenth century to the present. Addressing a wide spectrum of motorsports such as stock car racing, demolition derbies, land speed record pursuits and even staged train wrecks, the essays highlight the social and cultural implications of contemporary and historical moments in these sports. Topics covered include gender roles in motorsports, hot rods and the creation of fan and participant identities, the appeal of demolition derbies, the globalization of motorsports, the role of moonshine in stock car history, the economic relationship between NASCAR and its corporate
